All outside rooms. 3600 feet of verandas. Excellent service, reasonable rates
have made "Grand View" very popular.
GEO. E. WEAVER.

MORAVIAN SYNOD.

A Missionary Ordained from South-
ern California.
[ASSOCIATED PRESS NIGHT REPORT.]
LILITH (Pa.) Sept. 11.—At today's
meeting of the Moravian synod, a
deacon and thirteen presbyters were
ordained into office by Bishop C. L.
Reinke of West Salem, Ill., and J.
Porter Levering of Bethlehem, Pa.
The sermon was preached by Bishop
Reinke, whose text was from Revela-
tions, second chapter, second to fourth
verses. The prayer was by Bishop Ed-
ward Rondthaler of Salem, N. C., a
visitor from the southern province of

the church. The candidates ordained
were Arthur C. Delbo, missionary to
Southern California, who was made a
deacon, and thirteen presbyters.
This evening the synodal home mis-
sion service was led by Rev. W. H.
Strohmyer of Wisconsin.

Spanish Commissioners Embarrassed
SAN JUAN DE PORTO RICO, Sept. 11.—Last evening the Spanish eva-
cuation commissioners cabled the govern-
ment at Madrid explaining the predic-
ament in which they will be placed if
their instructions fail to arrive by to-
morrow. This morning Señor Munoz
Rivera, prefect of the provisional gov-
ernment, called upon the American
commissioners to pay his respects.

FIRE'S HAVOC.

Disastrous Conflagration Sunday Morn.

Jerome, Arizona, Almost Wiped
Out of Existence.

A Million Dollars Damage and
Many Lives Lost.

ELEVEN BODIES RECOVERED

A Score or More Believed to
Be in the Ruins.

Fifteen Hundred People Rendered
Homeless and Destitute.

New Westminster, B. C., also Laid
Waste by Flames.

A LARGE AREA BURNED OVER.

Losses Aggregate Hundreds of Thou-
sands of Dollars—Several Fatali-
ties—Big Blaze at Red Bluff, Cal.
Incendiary Fires in Sacramento.

PHOENIX (Ariz.), Sept. 11.—[Ex-
clusive Dispatch.] Meager particulars of
a disastrous fire at Jerome, Ariz.,
reached here tonight. It is stated that
the town was totally destroyed. The
fire started at about 7:20 a.m. in the
Mexican quarter and spread south-
ward, burning everything in its path.
Three persons were burned to death
and twelve more are missing, and are
thought to have perished.
Two hundred buildings were de-
stroyed, and 1500 persons are home-
less. All the business houses, some
of which were substantial brick struc-
tures, including the postoffice, have
gone up in smoke.
The loss is estimated at \$300,000,
with an insurance of about \$50,000.
The United Verde Mining Company
lost a number of houses occupied by
employees, but their store was spared.
Communication with Jerome is very
difficult, as the town is located about
four miles northeast of Prescott, on
a narrow-gauge railroad owned by the
mining company.

FRIGHTFUL HOLOCAUST.

Eleven Bodies Recovered From the
Ruins of Jerome.

[ASSOCIATED PRESS NIGHT REPORT.]
PRESCOTT (Ariz.), Sept. 11.—The
town of Jerome, near here, was almost
completely wiped out this morning by
fire. Attending the loss of over \$1,000,
000 in property, eleven bodies so far
have been recovered, while a score or
more are said to be in the ruins or
missing.

The fire originated from a gasoline
stove in a cabin, and traveled so
furiously and fiercely that it was im-
possible to save even clothing.

The fire was confined exclusively to
the business portion of the town, and
the open ground intervening between
it and the mammoth works of the
United Verde Company, so that the lat-
ter's plant, otherwise the loss and suf-
fering would have been even greater.

Many people from Jerome are arriv-
ing here on special trains, while those
remaining are being cared for by the
company.

The area of the fire was confined to
a narrow gulch and ravines leading to
it, in which were located substantial
wooden and stone buildings, the latter
melting almost as rapidly before the
flames as pasteboard.

Over 150 residences, averaging in
value \$2000; twenty-five general mer-
chandise and other stores, saloons and
stands of all kinds are wiped out; in
short, not a single business house re-
mains. The only building to escape was
the Methodist Church.

The number of people who are home-
less is placed at 1500, and they are
being cared for by Messrs. Giroux and
Allen of the mining company.

Two special trains left here tonight
for the scene of the disaster, carrying
tents and other material to comfort
the distressed, and a meeting is being
held here tonight to raise money for
the needy, of whom there are many.

The loss is almost complete, but lit-
tle insurance, being written in that
camp owing to the great risk and in-
adequate water supply. The United
Verde management is now kindly car-
ing for the sufferers, until other ar-
rangements are made.

Where the fire originated was the
scene of a drunken carousal last night,
and while no demonstrations are be-
ing made against the men who are re-

sponsible for it, when the horrors of
the deed wear away from the victims,
attention will be given to the men who
caused it. They are said to be Italians.

Various parties are now endeavoring
to extricate remains from the ruins, and
until the ground cools sufficiently to
permit the rescuers to approach the
debris, it will be impossible to ascer-
tain definitely the names of the vic-
tims. Several prominent mining men
in the West are said to have been in
the town at the time, and are unac-
counted for.

The fire started at 7 o'clock in the
morning, and spread with such rapidity
that in less than two hours not a
house in a radius that would cover five
blocks was left standing.

Hundreds of pounds of giant powder
was used in the attempt to arrest the
flames by demolishing buildings, but
eye-witnesses state that as soon as the
large gap was made the shattered
buildings were tipped up as if by suc-
tion and thrown hundreds of feet in
every direction, only to ignite and in-
crease the fury of the flames.

LATER.—It is said that the entire
family of a man and wife and three
children, who endeavored to save what
they had been years accumulating,
have been found in the ruins, and as
the arrivals from the scene reach the
city, the devastation is reported only
the more pitiable and sad.

Dr. Woods, the company physician,
narrowly escaped losing all his pa-
tients in the hospital, but by good
judgment, a score of inmates were
saved by him, by being removed early
and hastily.

The reservoir which supplies the town
with water, was undergoing repairs at
the time, but eye-witnesses state that
had the water been abundant after the
fire had gained headway, the result
would have been the same.

So complete was the disaster that
refugees in this city tonight are not
only penniless, but are without neces-
sary clothing as well.

It is impossible to obtain definite in-
formation tonight owing to the excite-
ment.

DESPAIR AND SUFFERING.

Caused by Fire at New Westminster.
Several Fatalities.

[ASSOCIATED PRESS NIGHT REPORT.]
VANCOUVER (B. C.), Sept. 11.—
The business portion of New Westmin-
ster was totally destroyed by fire this
morning. It is impossible to estimate
the property loss at this time, but it
will run up into the hundreds of
thousands.

Despair and suffering are the lot of
hundreds of homeless people. Food,
clothing, and aid of all kinds is being
hurriedly dispatched from Vancouver
to the ill-fated "royal city."

It is not known how many people
lost their lives, but it is feared several
have been burned to death. Campbell,
a fireman, fell off the roof of a burn-
ing building and was killed. A woman
dropped dead from fright. One woman
who was ill died while they were
moving her from a burning house, while
another suffering from typhoid fever,
who had been twice removed from
residences which were in the burning
zone, did not survive the shock.

So extremely fierce were the flames
that apples on the trees on the side
of the street opposite the burning
houses were roasted.

Three river steamers were destroyed,
the Edgar, Gladys and Bon Accord.
Every industry save the big Royal
City Planing Mills and Cleveland Can-
ning Company has been wiped out. The
Canadian Pacific Railway station and
bridge across the Fraser River was
burned.

The fire started about midnight on
the river front, and was caused by a
spark from a steamer. Fanned by a
fierce gale the flames spread at such
a rapid rate that within three hours
ten streets were ablaze.

The fire was first noticed at Brack-
man & Kerr's wharf on Front street.
From there it spread down to the
Canadian Pacific depot. It crossed the
street at this point. From there it
went up the street, taking in the
other side of Front street and Colum-
bia street, the business thoroughfare
of the city. Block after block caught
fire, and in a few minutes there was
nothing left of what had been the
business portion of New Westminster.

From Columbia street it spread up
to the hill to a huge building built on
piles in a gully bridged by Carnation
street. There was a great space under
this building filled with dry, seasoned
lumber. The air got in with the fire
and gave it great play. There was a
whirlwind of flame which belched forth
destruction. From this point the fire
spread and the English cathedral was
quickly attacked. The Baptist and
Central Methodist churches followed,
all being destroyed, together with a
large number of residences. The in-
habitants had to flee for their lives.

The fire swept down Carnation street
and quickly enveloped the big brick
courthouse and the wooden city hall.
Fortunately there was a big open
space here and the flames were not
able to leap far enough to take in
the big Central school. Agnews street,
however, had got alight and one side of
Royal avenue also. All the houses on
that street were completely burned.

The wind was blowing furiously down
Fraser River toward the mouth. If
it had been blowing the other way the
whole of the Catholic Church, build-
ings, convent and hospital and other
structures, would have been burned.

This morning there was no water
supply for the use of the homeless
citizens. There was not a single
butcher, baker or provision shop that
was not destroyed, and there was only
one hotel saved.

Some of the burned-out people retired
in the early hours to the open air at
Baltimore.

CHANGES AT CAMP WIKOFF.

Gen. Miles to Assume Direction of
Affairs and Order Removal of
Regular Troops—New Camp to Be
Located at Seagirt, N. J.

BY DIRECT WIRE TO THE TIMES.

WASHINGTON, Sept. 11.—[Exclusive
Dispatch.] A War Department official
tonight made the following statement to
The Times correspondent:

"This department will not be with-
out a line of defense when the time
comes for putting in a defense in the
investigation of the conduct of the war.
Secretary Alger did not rush into the
investigation without knowing where
he was coming out, and he will come
out of this better than people suppose.
You will find that the records of the
department will show many blunders
made, which cost losses of lives, were
made by officers of volunteer regiments
who did not know their business.
The department will attempt to
show that there is no complaint about
the treatment received by regular
army regiments in the war, and it will
show that the volunteer regiments
might have fared exactly as well had
the regimental officers known their
business. Orders and regulations were
issued from this office for the guidance
of all regiments, and in almost every
case they were violated by the officers
of volunteer regiments. Food was to
be had in plenty by all the regiments,
but the volunteers did not receive it
because their officers did not know
enough to draw it. It was the same
way with medicines. Health precau-
tions were violated by volunteers with
the knowledge of their officers, while
the regulars observed the regulations
and came out comparatively well."

This statement shows that the de-
partment will shift the responsibility
for loss of life upon officers in volun-
teer regiments. The claim will be

made that everything possible was done
by the department, but the real trouble
lay with ignorance or carelessness of
volunteers.

ALGER WELL PLEASED.
[ASSOCIATED PRESS NIGHT REPORT.]
DETROIT, Sept. 11.—Secretary Alger
this afternoon expressed himself as
well pleased at the President's selec-
tion of members of the commission to
investigate the condition of the com-
missary, quartermaster and medical
departments of the War Department,
during the war. On the subject of
sickness among the soldiers Gen. Alger
said:

"The whole trouble has been in the
volunteer troops not knowing how to
care for themselves and carelessness
in warding off disease. The regular
men have not been troubled as the vol-
unteers have. They have had yellow
fever and fevers from exposure
in the trenches before Santiago, before
their general health has been good
and the proportion of sickness and
deaths from sickness is very small."

"The most stringent orders have
been issued in regard to keeping the
camps clean. After my tour of in-
spection, I will go over the whole situ-
ation carefully, and it is possible that
a new set of regulations that will be
better may be issued."

"The day before I left Washington,"
said Gen. Alger, "I called Surgeon-
General Sternberg into my office and
told him I wanted to build winter
hospitals for six thousand men. We
will have our hospitals if we have to
raise six thousand to sixty thousand.
They will be located at points where
they can be reached by transports, al-
though just where, it is not yet de-
termined. One of the hospitals, how-
ever, will be at Havana. It will be
built just as soon as our troops are
sent to the island. I do not know
what they have in the city in the shape
of hospitals, but I very much doubt
if we would want to take any of their
infected buildings for hospitals for our
soldiers."

INVESTIGATION COMMISSION.
[ASSOCIATED PRESS NIGHT REPORT.]
WASHINGTON, Sept. 11.—At the
White House no statement was made
tonight as to the status of the com-
mission to inquire into the military bu-
reaux, although it was understood that
most of the gentlemen invited by the
President to serve on the commis-
sion had been heard from. Some of
them, however, had written that they
were unable to accept the matter under
consideration, and it was thought to be
desirable to await final conclusions by
all of those asked to serve before making any
announcement.

It appears to be accepted among
high officials that Gen. Gordon, Mr.
Lamont and Mr. Lincoln are not likely
to accept. The ex-Secretaries of War
are very busy men of affairs, and it
is thought to be hardly probable that
they can spare the time for the work
on the commission. It was reported
that Mr. Lamont's declination had
been received, but this, on inquiry,
failed of confirmation. The opinion was
expressed by high officials that Gen.
Manderson, Col. Sexton and Dr. Keene
might serve. As stated, however, some
of the gentlemen have written that
they had the matter under advisement,
and there is considerable doubt what
the result would be.

The War Department had a compar-
atively quiet day, although the adju-
tant-general's office was open through-
out the day, expediting the mustering
out and furloughing of troops in var-
ious sections. Gen. Corbin made his
usual call on the President tonight to
sum up the developments of the day,
but he said there was nothing of an
important nature.

HUNGARIANS MOURNING.
[ASSOCIATED PRESS NIGHT REPORT.]
BUDAPEST (Hungary), Sept. 11.—Both houses of the Diet met today in extraordinary session. Long before the magnates and deputies arrived the legislative palace was surrounded by an immense concourse of sorrowing people.

A band of 500 students, carrying crepe banners, lined the road leading to the entrance of the Unterhaus. The president of the chambers, expressed the nation's sorrow and condolence, and in both houses motions befittng the occasion were adopted. The Diet then adjourned.

A royal decree issued today suspends the Hungarian military maneuvers.

SWISS SYMPATHY.
[ASSOCIATED PRESS NIGHT REPORT.]
BERNE (Switzerland), Sept. 11.—The Federal Council met this morning and sent the following telegram to Emperor Francis Joseph:

"The Swiss Federal Council has the honor to express to Your Majesty its profoundest grief and deepest indignation at the horrible crime to which Her Majesty, Empress Elizabeth, has fallen victim. Our pain and indignation are all the greater owing to the foul crime having been committed on Swiss territory."

"The council hastens to assure Your Majesty at the same time of its own warmest sympathy and that of the whole Swiss people in the great loss to Your Majesty, the imperial house and peoples of Austria and Hungary have suffered through your exalted lady's death."

The flag at the Federal building is at half mast. The council reassembled this afternoon to consider the steps to be taken. It is expected that the judicial authorities of the canton of Vaud will conduct the inquiry and the trial.

The Geneva canton met today and decided to issue a proclamation, expressing the horror of the government and the people of Geneva, and a decree directing a popular demonstration tomorrow. All the civil officials will march past the Hotel Beauvauve, followed by the citizens, all of whom are invited to participate. During the procession the great bell of the cathedral associated with all Swiss national demonstrations of grief and joy will be tolled.

AN AUTOPSY HELD.
Emperor Francis Joseph telegraphed the Austrian Minister, Count von Kuefstein, to consent to a post mortem examination.

Dr. Reverdin, Dr. Megawaus and Dr. Goldmay, Mayor of Geneva, were entrusted with the examination of the wound on behalf of the judicial authorities, and accordingly proceeded to the Hotel Beauvauve, where they carried out their instructions. At the close of the examination they announced that death was caused by "internal hemorrhage from a triangular incised wound."

They decided that the injury was of a character to leave no doubts as to the theory which had been advanced that the Empress, who suffered from weakness of the heart, might have succumbed simply to the shock of the blow.

The autopsy showed that the lung, as well as the heart, was pierced. The General Council will place upon the coffin wreaths intertwined with the Austrian and Geneva colors and bearing the inscription: "A token of sorrowful sympathy from the people of Geneva."

THE ASSASSIN'S CYNICISM.
Throughout yesterday's examination of the assassin, his demeanor was one of revolting cynicism.

Empress Elizabeth was about returning to Caix, France, when she was murdered. Her suite had preceded her by train, leaving with her only her maid of honor, Baroness von Rothschild, and a man servant. The officials who visited the hotel to affix the seals upon the baggage, according to the strict law in force, found that the luggage had accompanied the suite.

The last words of the Empress were addressed to the attendant. Recovering consciousness for a moment, she feebly asked what had happened.

As yet, the authorities have found no confirmation of the report that the murder was part of an anarchist conspiracy, but a dozen persons with whom the assassin associated, have been arrested for examination.

ACTED FOR HIMSELF.
[ASSOCIATED PRESS NIGHT REPORT.]
GENEVA, Sept. 11.—No strangers are allowed to approach the coffin of the murdered Empress Elizabeth. The body has been embalmed and is dressed in white.

The doctors photographed the wound, but the plate will be destroyed. It is understood Emperor Francis Joseph will not leave Austria, but will send high court officials to take the body to Vienna. Flowers are arriving in profusion.

The assassin of Empress Elizabeth is calm in demeanor and frankly congratulates himself upon the success of his crime. He says:

"I am an Anarchist, but I belong to no committee. I acted on my own initiative. Let them do as they like with me. That is my strength."

ASSASSIN'S FRIENDS ARRESTED.
[ASSOCIATED PRESS NIGHT REPORT.]
LAUSANNE (Switzerland), Sept. 11.—Ten friends and acquaintances of the assassin of the Empress Elizabeth were arrested here today. He has been working as a stone mason in this vicinity, and last month he took the preliminary steps to become a naturalized Swiss. His application papers, however, he withdrew last Monday.

THE FILE FOUND.
[ASSOCIATED PRESS NIGHT REPORT.]
GENEVA, Sept. 11, midnight.—A file found late this evening in the passage of a house on the Rue des Aples, has been identified by the assassin as the weapon used.

His name, though heretofore variously given and published here as Lucheni, Luccasini and Luchesi, is now said to be Luigi.

The Italian records show that Luigi was an illegitimate child and took his mother's name. He has been twice arrested as a defaulter of the military service.

ARTFUL ALGER

(CONTINUED FROM FIRST PAGE.)

Important character. No word had come from Manila. There are no more volunteer troops at Montauk Point, eleven regiments of regulars being the only troops remaining, except those detained in hospitals. Gen. Corbin says Camp Wikoff has practically completed the service for which it was established, but that no final conclusion had been reached yet as to the ordering away of the remaining regiments and disposing of the camp.

WAITING ORDERS.
[ASSOCIATED PRESS NIGHT REPORT.]
WASHINGTON, Sept. 11.—General order 139 published from the War Department directs that all commissioned officers belonging to regiments furloughed for sixty days be placed upon waiting orders instead of being furloughed like their troops.

This will facilitate the making of any changes in the orders to regiments, will give the officers better pay and afford the department a closer hold upon them in case of need.

Another paragraph of the order places upon the commanding officers at hospitals the responsibility for deciding whether or not soldiers sent home on sick furloughs shall have sleeping-car accommodations, and requires the quartermaster, who is to be stationed at every general hospital, to honor any such requisitions.

BREVET COMMANDS.
[ASSOCIATED PRESS NIGHT REPORT.]
WASHINGTON, Sept. 11.—The War Department has issued an order directing the commanding officers of military departments, army corps and detached commands to send to the adjutant-general as soon as practicable the names of such officers in the regular and volunteer service as may be considered entitled to brevet commands for "distinguished conduct and gallant service in the presence of the enemy."

Rules have also been issued governing the award of medals to officers and enlisted men as follows:

Medals of honor will not be awarded to officers or enlisted men, except for distinguished bravery or conspicuous gallantry which shall have been manifested in action by conduct that distinguishes a soldier above his comrades and that involves risk of life, or the performance of more than ordinarily hazardous duty. Recommendations for the award will be governed by this interpretation of extraordinary merit.

Recommendations should be made only by the officer in command at the time of the "action," or by an officer having personal cognizance of the specific act for which the medal is granted. The recommendation must be accompanied by a detailed recital of the circumstances or by certificates of officers or affidavits of enlisted men who were eyewitnesses of the act.

The testimony must, when practicable, embrace that of at least two witnesses and must describe specifically the act or acts by which the person in whose behalf the recommendation is made "most distinguished" himself, and the facts in the case must be further attested by the official reports of the action, record of events, muster rolls and returns and descriptive lists.

SEXTON WILL SUFFICE.
[ASSOCIATED PRESS NIGHT REPORT.]
CHIAGO, Sept. 11.—Col. J. A. Sexton, the new commander-in-chief of the G.A.R., who has been asked to accept of the Peace Commission, has announced his acceptance of the President's appointment.

GOING TO PARADE.
Porto Rican Troops to Be Reviewed in Gotham.

[ASSOCIATED PRESS NIGHT REPORT.]
NEW YORK, Sept. 11.—Deputy Quartermaster Kimball today received an order from Gen. Miles setting forth that a parade of the returning Porto Rican troops will take place in this city on Saturday night. Col. Kimball was instructed to propose a suitable camp for the men who are on their way from Ponce in the government transports.

As soon as Col. Kimball received the order he communicated with Gov. Voorhees of New Jersey to consult as to the establishment of a temporary camp at Seagirt.

Early in the war Gov. Voorhees offered to the War Department the use of the camp at Seagirt, and the site was inspected by the surgeon-general's assistants. The mess halls and the kitchen erected, and the accommodations for the troops are said to be excellent.

There is plenty of water, and the camp is in a healthy location. Col. Kimball desires to know if the camp is still available. No agreement was reached today, though it is probable that the camp at Seagirt will be used.

The transports Concho and Alamo are on their way from Ponce, and they are expected to arrive this week. On the Concho are Gen. Wilson and staff of the First Division, First Army Corps, and staff of the Sixth Army Corps; detachment of United States Engineers, Co. C, unattached artillery, battery, field and staff; Battery A, Missouri Volunteers; Battery A, Twenty-seventh Indiana Volunteers; Battery B, Pennsylvania Volunteers; total, 35 officers and 530 enlisted men.

There will arrive on the Alamo Co's, G. H. E., Second Wisconsin; Battery A, H. Illinois; Co. H, First District of Columbia; Battery C, Pennsylvania Artillery, unattached, 6 officers, 50 men and 30 civilian employees. Total, 48 officers and 446 enlisted men.

CHANGES AT CAMP WIKOFF.
[ASSOCIATED PRESS NIGHT REPORT.]
CAMP WIKOFF (Montauk Point).
Sept. 11.—A fall of 10 deg. in the temperature was experienced last night. The cold wave was accompanied by a high wind which for several hours threatened to blow down the tents. The storm moderated toward morning.

The three trains that arrived today brought from New York a large number of Sunday visitors, who spent several hours inspecting the camp.

The transport Saratoga arrived from Santiago today with about sixty members of the signal corps in command of Lieut.-Col. Frank Green.

The Saratoga also brought 250 negro laborers, who were sent to Santiago several months ago to act as teamsters, drivers, storekeepers, etc. Two of the negroes died of malarial fever on the voyage. Twelve men were sick when the steamer reached here and were taken to the detention hospital. None of the cases were considered serious.

The members of the signal corps aboard were taken to the detention camp. The Saratoga will be fumigated and will then go to New York, where the negroes will land.

Col. Roosevelt expects to have his regiment of Rough Riders mustered out on Thursday when the men will go to their homes.

The officers and the men of the regiment are preparing to present to Col. Roosevelt, a testimonial of their regard in the form of a small bronze statue designed by Frederick Remington, the artist.

The general belief in Camp Wikoff today is that great changes will be soon made here, before the present week is over. Reports are circulated freely that Gen. Miles has ordered the direction of affairs of the camp and that he intends to have all regular troops removed from here as soon as possible and sent to regular army posts.

Gen. Bates, who is now in command of Camp Wikoff, admitted today that new orders had been received from Washington in regard to the disposition of the soldiers here and the general understanding that they will all be moved away as rapidly as possible.

ANARCHIST CRIMES EXPOSED.
[ASSOCIATED PRESS NIGHT REPORT.]
BALTIMORE, Sept. 11.—The United States auxiliary cruiser Dixie, having on board a large number of the members of the Maryland Naval Reserve as part of her crew, arrived here this afternoon from Porto Rico. While there the crew of the Dixie took a prominent part in the capture of the Ponce, which next to San Juan is the principal city on the island.

In recognition of this fact and of other deeds of valor performed by the Dixie's crew, a great popular reception has been planned in this city tomorrow, which happens to be a local holiday known as "Defenders' day," and commemorative of some of the stirring scenes connected with the war of 1812, and which took place in and about Baltimore.

MUSTERING OUT.
[ASSOCIATED PRESS NIGHT REPORT.]
CAMP MEADE (Middletown, Pa.), Sept. 11.—Two regiments left camp today for their home stations to be mustered out. They are the Eighteenth Pennsylvania and the One Hundred and Fifty-ninth New York. The Third New York and Sixth Signal Corps Company will go tomorrow. The signal company goes to Montauk Point to prepare for service in Porto Rico. The Sixteenth Pennsylvania Battalion is scheduled to leave Tuesday evening for New York and will leave the following day on the transport Berlin for Porto Rico. The battalion will be fully armed and equipped before departure and probably will be away two years.

Gen. Graham made a tour of the camp yesterday and paid his respects to the various regiments and commanders. He is well pleased with the excellent sanitary condition of the regimental camps.

LEAVING CAMP THOMAS.
[ASSOCIATED PRESS NIGHT REPORT.]
CHICKAMAUGA (Ga.), Sept. 11.—Troops K and G of Grigby's Rough Riders were paid off and discharged today, being the last troops of the regiment left in the park. Col. Grigby and major of the regiment left the regiment left this afternoon for their homes.

The men left in the park enjoyed a bonfire at the expense of the government last night, setting fire to Camp Thomas Theater, a building that had been used by Gen. Brooke, in which summer theatricals were given to the men of the volunteer army. The building was a large one, and contained many thousands of lumber. Gen. Breckinridge has ordered an investigation as to who are the guilty parties, and he promises severe punishment if he can identify the offenders.

This is the only act of vandalism of which the soldiers have been guilty at this camp.

GATHS AT CAMP WIKOFF.
[ASSOCIATED PRESS NIGHT REPORT.]
CAMP WIKOFF, Sept. 11.—The steamer Shinnecock will leave for New York tonight, with between two and three hundred sick for New York and Brooklyn hospitals. Six deaths were reported today.

NO MORE FROM WASHINGTON.
[ASSOCIATED PRESS NIGHT REPORT.]
SAN FRANCISCO, Sept. 11.—No word was received from Washington today by Gen. Miller, and the future disposition of the expeditionary force now at the Presidio is still uncertain.

Gen. Miller has approved the sentence of the court-martial in the self-defense, but Mander ran away.

The Sheriff returned late this evening and said when he left the posse, Mander was about ten miles ahead, going toward Hassayampa. The rest of the posse is in pursuit and will probably capture him tomorrow morning at Box Canyon, where he must go for water.

Casey was well known over the country. He was quarrelsome when drinking. He had a fight a week ago, in which a leg of the other man was broken, and the charge of murder against Casey was pending against him.

BRITISH MARKETS.
Upward Tendency Checked by the Cretan Outbreak.

[ASSOCIATED PRESS NIGHT REPORT.]
LONDON, Sept. 11.—The markets started off last week with an excellent tendency, and prices rose in all departments under the encouragement of the Egyptian news, the reported Anglo-German commercial agreement, the absence of a rise in the value of money, the Greek promising trade returns, indicating that exports to the United States and Austria are again growing.

Under such influences prices naturally moved up, until checked on Thursday by the Cretan outbreak. While the absence of an increase in the Chicago, Milwaukee and St. Paul dividends had a disastrous effect on Americans, which was opened lower on Friday, though at the close yesterday the tone had strengthened, and the finish, in several cases was 1/2 per cent. above the worst.

Union Pacific shares fell 1/2 per cent. Central Pacific, preferred, 1/4; New York Central and Hudson River, 1 per cent.; Atchafalaya and Santa Fe, preferred, 1 per cent.; Norfolk and Western, preferred, 1/2 per cent.; Southern, preferred, 3/4; and Chicago, Milwaukee and St. Paul, preferred, 1/2 per cent. The discount rate of three months' bills was 1 1/2 per cent., and money for the day or week was easy at 1/2 per cent.

ON MULE DIET.
Spanish Prisoners in Cuba—Cervera's Men Going Home.

[ASSOCIATED PRESS NIGHT REPORT.]
SANTIAGO DE CUBA, Sept. 11, 9:15 p.m.—Sunday was observed for the first time since the war terminated, as a day of rest and worship. All the military and civil offices were closed, as were also the shops, and the city's appearance was unusually quiet. Religious services were held at the palace, and Gen. Lawton, Gen. Wood and other American officers attended.

This afternoon, the correspondent of the Associated Press visited the wrecks of the Spanish cruiser, the Maria Teresa, floating in the Infanta Maria Teresa, nearly completed, but the Almirante Oquendo is not worth the cost of saving.

Col. Ray, who returned from Guantanamo yesterday, reports the embarkation of all Spanish soldiers save about eighty under Gen. Pareja.

The condition of the Spanish at Guantanamo prior to their departure for Spain was, Col. Ray says, most distressing. The death rate was over eighty per day, and Col. Ray believes that more than half will die on the passage. Seventy died on the wharf the day the San Ignacio was loaded, and there is now fever among those who remain behind. Col. Ray had two mules killed for fresh meat supplies to the Spaniards. No fresh beef was to be had, and the Spaniards were glad to get the mule meat. Indeed, there has been no meat of any kind in Guantanamo for three weeks. The First Battalion of Col. Ray's company, has

contracted yellow fever from a Spaniard. Sixty cases have broken out. The hundred Cubans have laid down their arms at Guantanamo, and gone to work on the plantations near the town. No rations are supplied to arms. Cubans.

CERVERA'S MEN GOING.
[ASSOCIATED PRESS NIGHT REPORT.]
PORTSMOUTH (N. H.), Sept. 11.—The Anchor Line steamer City of Rome, fully equipped to transport the Spanish prisoners to Spain, arrived in the lower harbor this afternoon. The big liner brought from New York Admiral Cervera, with his full staff of officers and ninety-four other prisoners.

The men of Seavey's Island, when they caught sight of the City of Rome, danced for joy, and tonight there is great excitement at the camp.

Everything in readiness on board the steamer, and each of the 1688 men will have a bunk for himself throughout the voyage of about eight days. It is expected that the last prisoner will leave Camp Long at 10 o'clock and that the City of Rome will pass out of the harbor tomorrow morning.

The steamer will be headed straight for Santander, Spain. There is scarcely a sick man among the entire crew of the late Cape Verde fleet, while everyone looks fat and healthy and is in strong contrast to their appearance two months ago.

AUNON'S DEFENSE.
He Disclaims Responsibility for Cervera's Blunder.

[ASSOCIATED PRESS NIGHT REPORT.]
MADRID, Sept. 11.—In the Chamber of Deputies yesterday Capt. Aunon, Minister of Marine, replying to the attacks of Señor Canalejas, editor of El Herald, reminded the Deputies that when he became Minister of Marine, the Spanish squadron under Admiral Cervera was already at Santiago de Cuba. Therefore, he declared, he could not be held responsible for the acts charged by Señor Canalejas.

"Moreover," he asserted, "the admiral's error was not his, but the unanimous opinion that the squadrons should go to Cuba."

"Admiral Cervera not having coal or food was unable to leave the blockaded port of Santiago," said Capt. Aunon. "He wanted to buy his ships in the harbor, but I informed him that it would be preferable to leave the port and engage the enemy. Gen. Blanco ordered Admiral Cervera to leave Santiago and fixed the day of his departure."

The Carlist, Republican and Conservative Deputies met again last evening and approved their joint manifesto and standing vote, because in secret session, the final vote will be taken at a public session.

Gen. Rios, Governor of the Visayas Islands and interim Governor-General of the Spanish territory in the Philippines, has wired the government that he had been unable to get on with the American authorities respecting the island of Luzon.

FOR EVACUATION.
Meeting of Commissioners at Havana and San Juan.

[ASSOCIATED PRESS NIGHT REPORT.]
HAVANA, Sept. 11, 8:50 p.m.—The American evacuation commission landed at this morning at 7:30 and rode from the wharf to the palace of the Cuban colonial Cortes, where the first sitting took place today, lasting twenty-five minutes.

The American commissioners have already taken a drive through the city. The day being the birthday of the Princess of Asturias, the Resolute hoisted a silk Spanish flag on the mainmast, and this afternoon she answered gun by gun a salute fired by the Alfonso XIII.

AT SAN JUAN.
SAN JUAN, Sept. 11.—The Alfonso XIII, however, arrived this morning from Barcelona, bringing instructions for the Spanish commissioners, with mail and passengers. Many of the latter are relatives of the island, who fled at the outbreak of the war, and the quays were lined with friends awaiting to welcome their return.

The steamer arrived in the harbor amid the booming of the forts and shore batteries. This afternoon she proceeded for Havana.

BAD MAN CASEY KILLED.
QUARREL SOME RANCHMAN MET HIS FATE AT LAST.

His Slayer, Although Acting in Self-Defense, Is Fleeing From the Sheriff's Posse—Victim Charged With Murderous Assault.

[ASSOCIATED PRESS NIGHT REPORT.]
LONDON, Sept. 12.—Many of the prominent European journals are urging international action against anarchists. They recall that both the late M. Carnot, President of the French republic, and the late Señor Canovas del Castillo, the Spanish Prime Minister, were the victims of Italian anarchists.

UNEASINESS ABOUT THE PHILIPPINES.
[BY DIRECT WIRE TO THE TIMES.]
NEW YORK, Sept. 12.—[Exclusive Dispatch.] The Philippines are now claiming rather serious attention, caused by the attitude of Aguinaldo, as outlined in last night's special. The Washington administration is really feeling some concern over the situation. The fear of European interference has not wholly disappeared with the knowledge that a mighty problem concerning the future government of the group must be settled very soon in Paris.

The administration is anxious to avoid any friction with Germany or other powers over the disposition of the Philippines, and every effort to that end will be made. But, while the intention is for the maintenance of peace, the military and naval strength of the United States will not be lessened to any great extent. That it is some naval power and not Aguinaldo with land forces only at his command that the government looks on with something approaching suspicion, is shown by the arrangements to increase the naval strength of the United States in the Pacific. The battleships Oregon and Iowa are going to Honolulu in anticipation of an emergency call to the Philippines, and the battleship Texas is being fitted up as a flagship at the Brooklyn navy yard for use by Dewey at Manila. Four colliers are also to be sent into the Pacific, with Oregon and Iowa, and altogether indications point to the concentration of a formidable force of naval vessels in the western ocean.

It cannot be said that the government is suspicious of any particular power. At the most the preparations are merely precautionary and dictated by a determination to show the world that the United States intends to fight for its rights in the Far East if the worst comes. As for Aguinaldo and his numerous demands and proclamations, the administration sees cause for annoyance, but not for alarm, at the present time. His recent demands or propositions, were read with great interest by officials of the War and Navy departments, and at the White House, but those officials who would be likely to know whether any advances from American representatives at Manila had been received, all said the newspaper accounts contained the first information that they had on the subject.

Reports have been received showing that Aguinaldo is getting impatient and inclined to make trouble, and these have been met by a decision to send a number of regiments to Honolulu to be held in reserve for possible service in the Philippines against the insurgents or any other enemy that might appear. For the present there are enough troops, according to advances from Gen. Oila, to meet any emergency.

GARRISONING HONOLULU.
Another matter that is specially claiming the attention of the War Office at Washington, is the garrisoning of Honolulu. Maj.-Gen. Merriam, now in that city, reports regarding his examination of sites for a garrison that it is entirely feasible to quarter a large army in the field there. His full mailed report on the subject is expected in Washington next Tuesday. If Gen. Merriam's report impresses the department favorably several regiments will be sent from San Francisco to Honolulu immediately. It is the intention of the administration to order all the troops now stationed at San Francisco, about 6000 in number, to Honolulu, if a suitable arrangements for a camping ground can be made. The troops will be held in Hawaii as a rendezvous pending the settlement of the Philippines question, when they may be sent on to Manila or returned to the United States, according to the outcome of the negotiations of the Peace Commission at Paris. The immediate policy of the War Department is similar to that of the navy in sending two battleships to Honolulu. The army administration wishes to have troops stationed as near the Philippines as possible. In order to save time in landing them at Manila in case an emergency requiring additional forces there should arise.

AGAIN THE TEMERARIO.
Once again the whilom terror of the seas, the Temerario, appears on the scene. It is reported from Asencion, Paraguay, that this torpedo boat, which cut so little figure finally with the Oregon, and sought refuge there, is about to sail, going first to Buenos Ayres.

REPORTS FROM HAVANA.
Reports from Havana are that the reports about ill feeling among the volunteers have been exaggerated in the United States. Little bad feeling against the government exists, and no trouble is to be apprehended from volunteers. Spanish police keep a watchful eye to prevent any disorders, though as a matter of fact, there is no danger.

The insurgent Gen. José Monteagudo informed a reporter who visited him that perfect harmony exists between the American and revolutionary army. Most of the newspapers are trying to confuse public opinion by inventing frictions that have never existed. The military commander of Matanzas has issued a proclamation absolutely forbidding people to leave town for the purpose of visiting the insurgent camps.

It is said in Washington that it has been practically decided to have three military departments in Cuba, forming one grand military division, with the major-general of the regular army in command, who will perform the duties of Military Governor. There is a possibility that Maj.-Gen. Merritt may be given this joint command, though I was told today that no decision had yet been reached on this point, further than that the major-general of the regular army would be selected. The choice is said to rest between Merritt, Brooke and Wade.

UNREST AT MANILA.
The Herald is the only authority for special Manila news under today's date, and it supplements exactly the long press reports via London, which sets out the stubbornness of the insurgents in the Philippines. The irritation, induced by the aggressive attitude of certain irresponsible native leaders, acting in defiance of Aguinaldo's orders, not to mention the secret efforts of the ecclesiastical party to promote disturbances with the intention of leading the revolutionary government to certain ruin, has become so serious, the dispatch says, that the troops are now kept in barracks under arms, to be ready for action at a moment's notice, something approaching suspicion, is shown by the arrangements to increase the naval strength of the United States in the Pacific. The battleships Oregon and Iowa are going to Honolulu in anticipation of an emergency call to the Philippines, and the battleship Texas is being fitted up as a flagship at the Brooklyn navy yard for use by Dewey at Manila. Four colliers are also to be sent into the Pacific, with Oregon and Iowa, and altogether indications point to the concentration of a formidable force of naval vessels in the western ocean.

It cannot be said that the government is suspicious of any particular power. At the most the preparations are merely precautionary and dictated by a determination to show the world that the United States intends to fight for its rights in the Far East if the worst comes. As for Aguinaldo and his numerous demands and proclamations, the administration sees cause for annoyance, but not for alarm, at the present time. His recent demands or propositions, were read with great interest by officials of the War and Navy departments, and at the White House, but those officials who would be likely to know whether any advances from American representatives at Manila had been received, all said the newspaper accounts contained the first information that they had on the subject.

Reports have been received showing that Aguinaldo is getting impatient and inclined to make trouble, and these have been met by a decision to send a number of regiments to Honolulu to be held in reserve for possible service in the Philippines against the insurgents or any other enemy that might appear. For the present there are enough troops, according to advances from Gen. Oila, to meet any emergency.

GARRISONING HONOLULU.
Another matter that is specially claiming the attention of the War Office at Washington, is the garrisoning of Honolulu. Maj.-Gen. Merriam, now in that city, reports regarding his examination of sites for a garrison that it is entirely feasible to quarter a large army in the field there. His full mailed report on the subject is expected in Washington next Tuesday. If Gen. Merriam's report impresses the department favorably several regiments will be sent from San Francisco to Honolulu immediately. It is the intention of the administration to order all the troops now stationed at San Francisco, about 6000 in number, to Honolulu, if a suitable arrangements for a camping ground can be made. The troops will be held in Hawaii as a rendezvous pending the settlement of the Philippines question, when they may be sent on to Manila or returned to the United States, according to the outcome of the negotiations of the Peace Commission at Paris. The immediate policy of the War Department is similar to that of the navy in sending two battleships to Honolulu. The army administration wishes to have troops stationed as near the Philippines as possible. In order to save time in landing them at Manila in case an emergency requiring additional forces there should arise.

NEWS SINCE MIDNIGHT.

[Under this heading are printed the very latest exclusive dispatches, being the cream of the news in the New York morning newspapers of today, which is wired from that city about 5 a.m., reaching The Los Angeles Times about 2 a.m.]

MOST DASTARDLY CRIME

EUROPE FILLED WITH HORROR, ANGER AND FEAR.

Anarchist Wantonness Makes Royal Trouble—Incites Over the Situation in the Philippines. A South American War Cloud.

[BY DIRECT WIRE TO THE TIMES.]

NEW YORK, Sept. 12.—[Exclusive Dispatch.] The dastardly crime of Italian anarchist who took the life of the Empress of Austria occupies the attention of all Europe and brings forth public expression of sympathy, horror, anger and fear. But the intramural utterances of the assassin himself, as secured by one newspaper representative at Geneva, are almost beyond human belief.

Lucheni is of medium size, has light hair, a light mustache, and weighs about one hundred and forty pounds. He speaks Italian and poor French, is about 25 years old, looks as if he had not shaved for a week; is not sullen, but has a rather contented expression. There is nothing about him suggestive of bravado, according to a special report of one who was in communication with him yesterday. He impressed the correspondent as being hypocritical, or at least like one inoculated with the virus of crime, and could easily be moved thereto by suggestion. A closer examination reveals in him the uncurbed passion of the tiger and hyena.

The correspondent who saw Lucheni telegraphed last night that the assassin said in response to questions: "I am quite happy and feel that I have done my duty. What motive can we anarchists have other than the regeneration of the race? For all other remedies have been tried and failed. Death goes to the root. It matters not what rules are removed. All must go. Punishment, particularly capital punishment, has no terror for anarchists."

This wretched murderer of the Empress had two confederates. The police have not yet arrested them, but are on their track. Curiously enough, M. Delcasse, French Minister of Foreign Affairs, mentioned to this correspondent some days ago that there was activity among the anarchists.

Carmen Sylva, the literary queen of Roumania, sends the following expression on the death of the Austrian Empress:

"Independence of character, simplicity of taste and benevolence of disposition were the chief traits of Elizabeth of Austria. The classic tragedies of Eschylus or of Sophocles furnish no fate so sorrowful as that which has befallen this accomplished woman."

Late advices from Paris are to the effect that wholesale arrests of anarchists have been decided upon in France, Switzerland and Italy.

Gen. Horace Porter, the American Ambassador, has registered his name at the Austrian Embassy, a custom which is followed in the case of the death of royalty.

It is believed the plot to assassinate the Empress of Austria was hatched by Italian anarchists in Zurich. Seven men were chosen to kill Humbert, sovereigns, especially King Humbert. A French detective, who was present at the meeting of anarchists, warned the French Foreign Minister, with the result that extra precautions were taken to protect King Humbert and President Faure. At a second meeting held in Zurich, Lucheni was taunted with cowardice, whereupon he volunteered to assassinate some victim.

The Italian anarchists are better organized than those of any other nation.

PLAGUE OF ANARCHISTS.
LONDON, Sept. 12.—Many of the prominent European journals are urging international action against anarchists. They recall that both the late M. Carnot, President of the French republic, and the late Señor Canovas del Castillo, the Spanish Prime Minister, were the victims of Italian anarchists.

UNEASINESS ABOUT THE PHILIPPINES.

[COAST RECORD.]

THE CHAIN COMPLETE

NEW EVIDENCE AGAINST MRS. BOTKIN DISCOVERED.

A Few Strings and a Bit of Paper That May Send Her to the Gallows.

THE MISSING LINK IS FOUND.

CONCLUSIVE EVIDENCE THAT SHE SENT THE POISONED CANDY.

Native Sons Conclude Their Celebration With a Clam Bake at San Jose—A Young Woman's Painful Death.

[BY DIRECT WIRE TO THE TIMES.]

SAN FRANCISCO, Sept. 11.—[Exclusive Dispatch.] A few strings and a bit of paper that may send Mrs. Cordelia Botkin to the gallows are now in the possession of the police. This evidence against the woman has been carefully kept secret since its discovery, as Chief Lees has desired to spring a surprise on the defense, but, through the garrulity of a witness, it became known today that the seal placed on the box of candy sold by George Haas & Son, has been found in Mrs. Botkin's room. This evidence was greatly needed by the prosecution. While the purchase of the arsenic man, the prisoner's guilt almost certain, the finding of the seal, which connects her directly with the purchase of the candy used by the poisoner, completes a remarkable chain of circumstantial evidence. The seal was found by Manager Barnes at the Hotel Victoria, where Mrs. Botkin had apartments at the time the poisoned candy was sent to Dover. Last Thursday Barnes went to the room occupied by Mrs. Botkin, which had been vacant since her departure, and as the place was somewhat untidy, he began to clean up things from the floor. While engaged in this occupation he found a quartet of seal with strings hanging to it, just as they had been cut from a package. The seal bore the advertisement of George Haas & Son, the place where the candy that was afterward loaded with arsenic was purchased. Barnes at once hastened to the office of the Chief of Police and told his story, at the same time handing over the evidence. He was at once enjoined to maintain the strictest secrecy.

It was evident that the strings and seal had been cut from a candy box purchased from George Haas & Son. It was also plain that if the purchaser had desired to send the package to some friend there was reason why the advertisement of the store should have been removed. It is a custom at Haas's store when fancy boxes of candy are to be wrapped up carefully, to use a seal. This discovery of the seal strongly indicates that Mrs. Botkin purchased the candy from the Haas store shortly before her departure from this city. She left her room in the Hotel Victoria on August 4, the day the package of poisoned candy was mailed, and no one has occupied that room since. The Japanese servant swept out the apartment every day of her occupancy, and if the seal had been dropped on the floor prior to August 4, it would have been swept out and burned up. This is the basis of the theory that Mrs. Botkin purchased the package of candy on July 31, kept it hidden in her room unopened until August 4, then opened it, thoughtlessly throwing the seal and string on the floor, placed arsenic in the candy, and before starting for Heidelberg consigned the package to the mails.

Solano Democrats.

VACAVILLE, Sept. 11.—After a protracted session, during which several deadlocks were developed, the Solano County Democratic Convention completed the following ticket: Sheriff, Dan Fitzpatrick; Recorder, L. V. Corcoran; Assessor, John Marigan; Assessor, David Miller; District Attorney, Raleigh Barcar; Treasurer, James A. Keyes; Superintendent of Schools, Dan White; Coroner, William McDonald.

Native Sons Clam Bake.

SAN JOSE, Sept. 11.—The last event of the celebration by the Native Sons was a clam bake, which took place this forenoon at Alum Rock. There was an immense attendance and the affair was a complete success. Sixteen thousand clams, 250 ears of corn and 400 chickens, besides other tempting viands were served. The evening trains took the last of the excursionists from the city.

A Hard-Headed Youth.

SAN FRANCISCO, Sept. 11.—James M. Shaughnessy, formerly a janitor in the school department, during an altercation today with two young men, Pat Kelley and James Thompson, was shot in the head at close range. The 32-caliber bullet flattened itself against the skull, doing no serious harm. The hospital surgeons pronounce the case a remarkable one.

Tried the Gas Route.

SAN FRANCISCO, Sept. 11.—William D. Baker, a young man from Augusta, Me., attempted suicide by gas asphyxiation in a lodging-house today. He was supposed to be dead when found, but was revived at the Receiving Hospital. He was formerly a clerk in the office of the United States Legation at Tokio. Despondency was the cause of his act.

Drowned While Swimming.

SACRAMENTO, Sept. 11.—Henry Bracken, a molder employed at the Union Iron Works in this city, was drowned in the river while swimming today. Bracken leaves a brother, who resides at Buile, Mont., and a sister at Fort Townsend, Wash. The remains have not been recovered.

Drowned While Drunk.

SACRAMENTO, Sept. 11.—The body of an unknown man was found in China Slough, near the railroad depot, this morning. It is supposed he wandered into the pond while under the influence of liquor. The victim was about 35 years of age, had black hair and a stubby beard.

Fell From a Window.

OAKLAND, Sept. 11.—John Eade, an aged carpenter, fell from a second-story window of the Newland House, corner of Seventh and Washington streets, yesterday afternoon and died from his injuries while being taken to the hospital.

Miss Blanchard's Fatal Mishap.

SAN JOSE, Sept. 11.—Emily H. Blanchard, a compositor at the Herald office, was probably fatally injured at

Alum Rock this afternoon. She was on the platform of a train which was just coming into the station, when the spreading of the rails caused the cars to jolt and throw her to the ground. She rolled between the wheels, and her right arm was frightfully crushed and her spine injured. She died at 10:30 o'clock this evening.

Butchers' Picnic.

SAN JOSE, Sept. 11.—The Journeyman Butchers' Association held a picnic at Agricultural Park today. There were over 4000 representatives from San Francisco, Oakland and San Mateo. A ton of meat was barbecued, music and dancing were the programme after the feast.

The Alliance Returned.

SAN FRANCISCO, Sept. 11.—The steamer Alliance, which left here some time ago, with part of the New York Volunteers for Honolulu, returned today with a few passengers and a small cargo. She sailed several days before the Coptic left Hawaii, and brought no news not already published.

United Labor Party.

SAN FRANCISCO, Sept. 11.—The chairman of the State Committee of the United Labor party has been authorized to issue a call for a State convention to be held on September 20 in this city.

A Rancher Slandered.

SAN JOSE, Sept. 11.—Chase, a rancher from Santa Barbara, was sandbagged at the San Augustin street bridge early this morning and robbed of \$22. His injuries are not serious.

Shoulder Dislocated.

SAN JOSE, Sept. 11.—Jefferson Bailey, a retired farmer, was thrown from a carriage on the Alum Rock road today, and had his shoulder dislocated.

[SPORTING RECORD.]

GILT EDGE TEAM LOST.

A TEN-INNING GAME ON THE STOCKTON DIAMOND.

Brewers Beaten by the Slough City Boys—Dolphins Won at Santa Cruz—Monarchs Beat the Pioneers at Grass Valley.

[ASSOCIATED PRESS NIGHT REPORT.] STOCKTON, Sept. 11.—Today's was the first ten-inning game the Gilt Edge team had played and they lost it. Stockton showed the Brewers a new wrinkle or two and won by a score of 3 to 1 in the tenth. The score was as follows:

Sacrifice hits—Knell, Stanley.

First base on error—Stockton, 2.

Left on bases—Stockton, 8; Sacramento, 6.

Base on balls—Borchers, 2; Harvey, 8.

Struck out—By Borchers, 3; Harvey, 8.

Hit by pitcher—Seina.

Passed balls—Stanley, 1.

Time of game—Two hours.

Umpire—J. O'Connell.

Score—4 to 3.

MONARCHS ON TOP.

[ASSOCIATED PRESS NIGHT REPORT.] GRASS VALLEY, Sept. 11.—The Monarchs today defeated the Pioneers in the second game of the series by a score of 4 to 3. As in the first game, it took ten innings to decide the contest.

NINE GOOSE EGGS.

[ASSOCIATED PRESS NIGHT REPORT.] SAN FRANCISCO, Sept. 11.—The Athletics of this city rolled up a score of nine goose eggs in their baseball game with the Oakland at Recreation Park today. Sullivan, Hildebrand and Ford each made two-base hits. Sullivan's two-bagger in the first inning scored two of Oakland's four runs.

Score: Athletics, 0; base hits, 5; errors, 4. Oakland, 4; base hits, 5; errors, 1.

Batteries—Fitzpatrick and Ford; Russell and Sullivan.

Umpire—Smith.

PITCHERS RATTLED.

[ASSOCIATED PRESS NIGHT REPORT.] SAN JOSE, Sept. 11.—At the end of a poorly-played game today, the score stood San Jose, 5; Santa Cruz, 7. Daubeniss and Thomas, the pitchers, seemed to be rattled, and sent ten men to bases on balls. The last few innings showed steady work. There was a tie in the ninth, and in the tenth, Egan, with a two-bagger, won. Score:

San Jose, 5; base hits, 11; errors, 1. Santa Cruz, 7; base hits, 8; errors, 1.

Batteries—Thomas and Kent; Daubeniss and Daubeniss.

Umpire—Smith.

EASTERN BASEBALL.

Colones, Giants and Colts Were the Sunday Winners.

[ASSOCIATED PRESS NIGHT REPORT.] CINCINNATI, Sept. 11.—Cincinnati, 5; base hits, 11; errors, 3.

Louisville, 3; base hits, 16; errors, 3.

Batteries—Damman, Dwyer and Woods; Magee, Dowling and Kittredge.

NEW YORK-WASHINGTON.

[ASSOCIATED PRESS NIGHT REPORT.] NEW YORK, Sept. 11.—New York, 8; base hits, 9; errors, 1.

Washington, 3; base hits, 4; errors, 7.

CHICAGO-ST. LOUIS.

[ASSOCIATED PRESS NIGHT REPORT.] CHICAGO, Sept. 11.—Chicago, 5; base hits, 9; errors, 1.

St. Louis, 1; base hits, 5; errors, 4.

Second game: Chicago, 5; base hits, 11; errors, 1.

St. Louis, 3; base hits, 9; errors, 4.

of Germany was second and Jacquelin of France third.

Owing to the bad management of the meeting Banker declined to run off the match between the amateur and professional mile champions. Therefore Albert of Germany the amateur champion, rode over the course.

CYCLE RACING BOARD.

Chairman Mott Issues a Bulletin to the L. A. W.

[ASSOCIATED PRESS NIGHT REPORT.] BALTIMORE, Sept. 11.—Chairman Mott of the L. A. W. racing board today issued a bulletin, in which he says:

"The American cycle racing association at Willow Grove track, while under lease to it, is suspended from the sanction privilege until all reasonable claims against the abandoned meet at Willow Grove, Philadelphia, September 5, are settled."

"Professional record accepted: One-half mile, against time, unplaced, made by William Martin at Newby oval, Indianapolis, August 14, 1898; time 0:55 3-5.

Amateur record accepted: One-quarter mile, tandem, unplaced, made by Earl Peabody and F. C. Llewellyn at Indianapolis, August 12, 1898; time 0:24 1-5.

"Registered, T. J. Knebel, Pueblo, 5031; H. W. Lathaw, Pueblo, 5032; Vincent Loo, Denver, 5033; Clarence V. Dasey, Denver, 5034."

PIGEON SHOOT.

Clarence Haight Wins the Olympic Championship.

[ASSOCIATED PRESS NIGHT REPORT.] SAN FRANCISCO, Sept. 11.—The Olympic Gun Club held its final championship pigeon shoot of the season at Ingleside today. The championship was won by Clarence Haight, the first-class medal by Clarence Nauman and the second-class medal by Milton E. Unger. The competition was keen, and much interest was manifested, there being twenty competitors.

The total score made by Haight during the contest was out of a possible 97 birds. Nauman killed 85 and Unger 72.

Del Norte Ties the Record.

INDEPENDENCE (Or.), Sept. 11.—Del Norte today equalled the world record as a guileless paper, covering the mile in 2:04 1/2. The time by quarters is as follows: 30 1/2, 1:02 1/2, 2:04 1/2.

Del Norte is a cock stallion and a full brother to Chehalis, the well-known pacer.

GASOLINE DOWN CELLAR

CAUSED A TERRIBLE DISASTER IN THE QUAKER CITY.

Three Houses Demolished, a Dozen Lives Lost, and a Score of People Injured—Killed and Wounded Blown in All Directions.

[PHILADELPHIA NIGHT REPORT.] PHILADELPHIA, Sept. 11.—By the explosion of forty gallons of gasoline in the cellar of a grocery store at No. 144 South street, four, and possibly a dozen lives were lost. As an immediate consequence of the explosion, the building where it occurred and those adjoining it on either side collapsed, and up to 10 o'clock, four hours after the occurrence, four bodies had been recovered from the ruins and three of these identified as follows:

Samuel Schattenstein, keeper of the grocery store.

His ten-year-old son Abraham.

A ten-months old child named Goldberg.

The fourth body was that of a girl about 10 years.

How the explosion occurred is as yet impossible to secure anything like an accurate census of the occupants, but it is generally stated that the upper stories were crowded with families huddled together in tenement fashion.

Coming as it did, at the supper hour, it is feared that loss of life will be heavy. The list of injured will be long. They were taken to all the hospitals within a radius of a mile.

After the recovery of the four bodies, the authorities decided to postpone the search for additional victims until tomorrow morning, thus obviating the mass of debris and wreckage in the darkness. The corpses of Schattenstein and his son were taken to the morgue, and the unidentified ten-year-old girl was found plucked by a mass of timbers in the rear of the same building, and the child died while being taken to a hospital.

The injured at the hospital are:

L. Schattenstein, aged 12, broken nose and lacerated scalp.

Alexander Schattenstein, aged 6, lacerated scalp; condition serious.

Mary Healey, aged 6 1/2, fractured leg.

Annie McPherson, aged 40, contusion of ankle.

Harry Rothen, aged 12, lacerated scalp.

Maggie Goldberg, aged 12, lacerated scalp.

Sarah Goldberg, aged 14, lacerated scalp and contusion of ankle.

At the Jefferson Hospital are A. F. Fish, aged 38, fireman of truck company D, lacerated scalp and leg.

Yetta Goldberg, aged 9, contusion of leg and back, and lacerated wound of scalp.

At the Polytechnic is Rose Schattenstein, 8 years, lacerated finger.

The ten-months-old child was Max Goldberg, son of the furniture store-keeper.

Estimates of the number of missing vary from 18 to 6.

The accepted theory of the accident is that Schattenstein went into the cellar with a lighted lamp which ignited the fumes of the gasoline. From the position of his body and that of his son on the front steps, it is thought they were emerging from the house when caught by falling walls.

The collapse of the buildings occurred within two minutes of the explosion, and the occupants had little time or chance to escape. Mrs. Goldberg snatched up her ten-months-old child in her arms and rushed for an exit, but the child was so badly injured that it died while being borne to a hospital. Strangely enough, the mother escaped with only a slight injury.

At 6:45 o'clock tonight a sergeant of police was talking with one of his men on the opposite side of the street when, without a moment's warning, there was a terrific explosion which almost instantly was followed by a great crash. Mingled with this were the cries of human beings. Without loss of time, one of the policemen struck the fire alarm at a box near by, while the other rang for ambulances.

The work of rescue was begun forthwith, but was temporarily abandoned later when the twilight had deepened into night. All the dead and injured were in buildings at the time of the disaster, and as the walls collapsed almost in a perpendicular direction, no passers-by were injured by flying debris. None of the injured are expected to die.

SITUATION IS GRAVE

SERIOUS STATE OF AFFAIRS IN THE PHILIPPINES.

Insurgents' Action in Pursuing the Campaign After the Armistice Condemned.

AGUINALDO'S Waning Power.

HE HAS NO FIRM CONTROL OF THE REBEL FORCES.

Extraordinary Patience and Tact of Americans in All That Has Prevented a Clash With Our Troops.

[ASSOCIATED PRESS NIGHT REPORT.] LONDON, Sept. 12.—The Manila correspondent of the Times, telegraphing September 9, says:

"The insurgent conquest of the island of Luzon is rapidly approaching completion. Recent authentic reports announce the capture of Spanish positions, and at present the rebels control every foot of the island except Manila, Cavite and a small portion of the provinces of Albay. They hold over 9000 Spanish prisoners, and have recently captured several thousand rifles, some cannon, a large quantity of ammunition, and several armed standards. The Spanish held out valorously, but were fighting against the inevitable."

"It is undeniable that the action of the insurgents in pursuing the campaign after the armistice is declared has caused much useless suffering, and destruction of property, and has annihilated their early claim to be considered in any respect as the allies of America. Their motive has been twofold. First, an implacable hatred of the Spanish, with innate racial thirst for revenge, and secondly, their wish to place themselves on record before the world as a successful revolutionary government, and as complete masters of the Luzon provinces and as many adjacent islands as they may have to occupy before the Philippine question has been settled by the Paris commission."

"They are now free to withdraw their troops to undertake an expedition against Panay and to capture Iloilo. By continuing the campaign now, regardless of the armistice, they put themselves in the wrong with everybody, just as by crowding into the suburbs of Manila, and refusing to vacate the same unless compelled to by superior force, they have put themselves in the wrong with the Americans."

"Their action is doubtless due partly to the dispersed organization of their forces, which, by their own confession, consists of an aggregation of independent units, with chiefs, each ambitious to rule his own territory, and struggling for the position which will secure for everybody booty or otherwise private fortune. This disorganization, which naturally affects the responsible individuals, has been constantly fomenting the irritation resulting from the dual occupation of the suburbs of Manila. The situation has been impossible from the beginning and conflicts have been avoided only by great tact and the extraordinary patience of the American troops, who loyally observe their duty of preserving the peace of the town."

"The policy of permitting the insurgents to occupy the Spanish positions has been fruitful in many difficulties, not the least of which is the stimulus given to the concept of the natives, who consider themselves the conquerors of Manila, although they captured not a single position when the town was taken."

"Gen. Otis has attacked the complicated questions he inherited from Gen. Merritt, his predecessor, with remarkable energy and decision, and is rapidly establishing order in every department where comparative chaos ruled before. He has been fully occupied with matters more intimately concerning the military government of Manila and only recently has been able to study exhaustively the insurgent question, and to satisfy himself regarding the equity of the insurgent claims, so as to solve a problem practically unapproached heretofore."

"Aguinaldo has persistently demanded, in terms not too polite, various impossible concessions, for example, an occupation of the government of the Philippine archipelago, a written assurance that the insurgents will be permitted to occupy permanently their military positions in Manila and protection for the insurgent vessels by the American fleet, with many other claims in yielding an innocent demand for a share of the booty captured by the Americans at Manila."

"After a careful review of the situation, Gen. Otis has reached the conclusion that the insurgents have no right to occupy the suburbs of Manila, and that Aguinaldo's claims have the support of neither equity nor justice. He has, therefore, categorically refused to consider Aguinaldo's demands, and today sent him an ultimatum in terms plainly comprehensive and authoritative that he must withdraw his troops from the suburbs before tomorrow, or suffer the consequences of his refusal."

"The answer will probably be that Aguinaldo himself is only too willing to oblige, but that he cannot do so without the consent of his troops. The reasons why they cannot remain at Manila. This temporizing excuse, although now stale from frequent use, is a much truth. It is an undoubted fact that Aguinaldo has but a feeble hold on the organization. His power is fast waning, and the insurgents are threatened with disintegration into opposing factions unless some leaders are soon discovered who can unify the class neither government nor revolutionary."

"It is reported that the presidency of the revolutionary government will be offered to Cajetan Arellano at the congress at Malolos on September 15. Arellano is a lawyer of excellent reputation, the one man among the Filipinos who is universally respected. Hitherto he has consistently avoided politics, and it is doubtful whether he will undertake the task of steering a rudderless ship."

"Whatever may happen at the congress, there is no possible appearance that the natives are capable of self-government. The educated class neither desire nor hope for complete independence, and will welcome any protectorate which secures the people good order and the present relations between the masses of the revolutionists, on the other hand, are bitterly opposed to any solution of the problem which does not promise untrammelled independence."

"The inactivity of the insurgents in the northern provinces and the totally irresponsible nature of their government seriously threaten foreign commercial interests therein, which are very important. One English house has had over a million dollars worth of products awaiting shipment. Every body is despondent, concerning the possible action on the proposed congress, and of the present relations between the Americans and insurgents. The situation is considered very critical."

No More Fever.

JACKSON (Miss.), Sept. 11.—No new cases of yellow fever have developed in the city since the single case reported Saturday afternoon.

CARTER'S LITTLE LIVER PILLS.

COMPLETE... AT LAST...

Our Magnificent Photographic History of the War.
It is Simply Beyond Compare.

Read these words of praise from distinguished Americans about the now famous series. A few from many:

HON. JOHN W. WALKER, Ex-Secretary of War, says: "You could hardly have done a more desirable thing for the people, and you have done it well."
HON. JOHN D. LONG, Secretary of the Navy, says: "I have found the views extremely interesting."
HON. RUSSELL A. ALGER, Secretary of War, says: "I shall certainly take great pleasure in looking them over."
HON. LYMAN J. GAGE, Secretary of the Treasury, says: "They are extremely interesting and very instructive."
HON. GROVER CLEVELAND says: "I have examined the photographs and read the descriptions with much interest, and it seems to me they cannot fail to impart useful information in a most entertaining way."
ADJ-GEN. H. C. CORBIN says: "The collection is very complete, and the views remarkably fine."
REAR-ADMIRAL S. B. LUCE says: "Admirable for educational purposes and, as a record of great historical value."
SENATOR H. C. LODGE says: "The work is very interesting and I have looked it over with much pleasure."

Just Think of It.

A magnificent pictorial and descriptive record of our great war with Spain. The work tells you, by word and picture, all about what our brave boys have done, on land and sea, and how they did it. It is a Photographic History which actually takes you

Through the War By Camera.

This history is now complete in 17 magnificent sections, each containing 16 or more superb photographs of war scenes and incidents, taken on the spot by special artists at the front, and also by the official U. S. Government photographers for preservation in the archives at Washington.

362 Superb Views, Only \$1.70 FOR and Portraits, Only \$1.70 ALL.

These Views, if purchased at retail, would cost at least 25 cents each, or \$91.00.

Our readers desiring full sets can now send in \$1.70 (ten cents for each section) and we will forward the sets as issued. Those desiring to complete their sets can send in ten cents for each section lacking. Remember there are 17 sections in all, which make the history complete.

A Moving Panorama of the War.
Issued each week during the war.

At the Churches Yesterday.

Heaven and How to Get There.

AT THE First Congregational church yesterday morning, Rev. Edward F. Goff, pastor of the First Congregational Church of Riverside, spoke on "Heaven and How to Get There," taking for his text Hebrews xi. 16. He said in part: "Man is ever reaching upward. The lower animals may be content with the forest, river, pasture-field and companionship of their kind, but man's aspirations soar heavenward and demand a perfect world. This is one proof of man's immortality. Another proof is found in his capacities. The manufacturer does not build his factory and make perfect his watches simply to throw them into the shadow, neither does the Almighty Creator make man, and, through long ages, led the race up to its present attainments, that in the end He might destroy him. 'The knowledge derived from the scriptures upon the subject is not great, and man may sometimes wonder at the reserve of God's word upon a matter of such universal and justifiable interest, but there are good reasons for it. If you were to try to explain to the Equinox of the frozen north, or to the Bushmen of Africa, the grandeur of enlightened civilization, the wonderful science and the art, the attempt would prove a failure. It would be incomprehensible to them. If an angel from heaven should visit and try to convey a knowledge of the heavenly world, it would be incomprehensible to us. Neither from scripture nor science do we get light upon the locality of heaven. Some believe that in the immensity of the universe is a central orb, a giant sun, and the sun and other stars and systems revolve. This view is very fascinating. We could easily believe that the center of all things would be heaven, and the throne from which God rules the world; but, unfortunately, though some scientists have hinted at heaven, and though there are giant suns, compared with which our luminary is but a pigmy, yet all the researches of astronomers have not proved that the mighty systems scattered through infinite space move around a common inconceivably great center, and that they are not independent. We shall never know the locality of heaven until we get there. Perhaps we shall find that it is not far away, and that it is not independent. We shall receive me to glory.' Christ will show you the way, if you will take it."

The God-Man.

DAVID WALK, in the Church of Christ, on Eighth street near Central avenue, announced as the subject of his sermon "The Incarnation." "God was manifest in the flesh" is the most wonderful oracle vouchsafed by heaven to man. "In the beginning was the word, and the word was with God, and the word was God. And the word became flesh and dwelt among us." The evolution of the doctrine of the incarnation is one of the most important in the history of the world. It is the first Messianic promise; and these are representative of the two great powers of good and evil. To the father of the chosen race the promise was somewhat amplified: "In thee shall all the families of the earth be blessed." Later, the promise was confirmed to Isaac, and subsequently to Jacob, the son, the head of the twelve great patriarchal families. Isaac, himself, a child of promise, was a type of the promised Savior. Born of the free woman, Isaac was the only son of his father, as Jesus was the only begotten Son of His Father; and both these sons were offered in sacrifice. Isaac had but one son who could be his heir, as this last, and the son who could be his heir; but not till he was dying was it revealed to Jacob from which of his sons should descend the Messiah. In the solemn moment of prophetic blessing, beginning with the eldest, nothing remarkable was revealed till he came to the fourth son, and then the Holy Spirit made his answer: "Judah, thee shall thy brethren praise; thy hand shall be on the neck of thine enemies; thy father shall bow down to thee." The scepter shall not depart from Judah, nor the ruler's staff from between his feet, until tribute be paid to him; and another of his brethren shall bow down to him. The next step in the evolution of this sublime mystery is the incarnation of the Prince of peace, the Son of God, who shall call his name Immanuel; that is, himself, God with us, and who shall be a type of the promised Savior. Born of the free woman, Isaac was the only son of his father, as Jesus was the only begotten Son of His Father; and both these sons were offered in sacrifice. Isaac had but one son who could be his heir, as this last, and the son who could be his heir; but not till he was dying was it revealed to Jacob from which of his sons should descend the Messiah. In the solemn moment of prophetic blessing, beginning with the eldest, nothing remarkable was revealed till he came to the fourth son, and then the Holy Spirit made his answer: "Judah, thee shall thy brethren praise; thy hand shall be on the neck of thine enemies; thy father shall bow down to thee." The scepter shall not depart from Judah, nor the ruler's staff from between his feet, until tribute be paid to him; and another of his brethren shall bow down to him. The next step in the evolution of this sublime mystery is the incarnation of the Prince of peace, the Son of God, who shall call his name Immanuel; that is, himself, God with us, and who shall be a type of the promised Savior. Born of the free woman, Isaac was the only son of his father, as Jesus was the only begotten Son of His Father; and both these sons were offered in sacrifice. Isaac had but one son who could be his heir, as this last, and the son who could be his heir; but not till he was dying was it revealed to Jacob from which of his sons should descend the Messiah. In the solemn moment of prophetic blessing, beginning with the eldest, nothing remarkable was revealed till he came to the fourth son, and then the Holy Spirit made his answer: "Judah, thee shall thy brethren praise; thy hand shall be on the neck of thine enemies; thy father shall bow down to thee." The scepter shall not depart from Judah, nor the ruler's staff from between his feet, until tribute be paid to him; and another of his brethren shall bow down to him. The next step in the evolution of this sublime mystery is the incarnation of the Prince of peace, the Son of God, who shall call his name Immanuel; that is, himself, God with us, and who shall be a type of the promised Savior. Born of the free woman, Isaac was the only son of his father, as Jesus was the only begotten Son of His Father; and both these sons were offered in sacrifice. Isaac had but one son who could be his heir, as this last, and the son who could be his heir; but not till he was dying was it revealed to Jacob from which of his sons should descend the Messiah. In the solemn moment of prophetic blessing, beginning with the eldest, nothing remarkable was revealed till he came to the fourth son, and then the Holy Spirit made his answer: "Judah, thee shall thy brethren praise; thy hand shall be on the neck of thine enemies; thy father shall bow down to thee." The scepter shall not depart from Judah, nor the ruler's staff from between his feet, until tribute be paid to him; and another of his brethren shall bow down to him. The next step in the evolution of this sublime mystery is the incarnation of the Prince of peace, the Son of God, who shall call his name Immanuel; that is, himself, God with us, and who shall be a type of the promised Savior. Born of the free woman, Isaac was the only son of his father, as Jesus was the only begotten Son of His Father; and both these sons were offered in sacrifice. Isaac had but one son who could be his heir, as this last, and the son who could be his heir; but not till he was dying was it revealed to Jacob from which of his sons should descend the Messiah. In the solemn moment of prophetic blessing, beginning with the eldest, nothing remarkable was revealed till he came to the fourth son, and then the Holy Spirit made his answer: "Judah, thee shall thy brethren praise; thy hand shall be on the neck of thine enemies; thy father shall bow down to thee." The scepter shall not depart from Judah, nor the ruler's staff from between his feet, until tribute be paid to him; and another of his brethren shall bow down to him. The Times

THE WEATHER YESTERDAY.

U. S. WEATHER BUREAU, Los Angeles, Sept. 11.—[Reported by George E. Franklin, Local Forecast Official.] At 5 o'clock a.m. the barometer registered 29.85; at 5 p.m., 29.78. Thermometer for the corresponding hours showed 72 deg. and 81 deg. Relative humidity, 75 and 65 per cent. Wind, 5 a.m., west, velocity, 1 mile; 5 p.m., west, velocity, 1 mile. Maximum temperature, 86 deg.; minimum temperature, 67 deg. Barometer reduced to sea level.

WEATHER FORECAST.

Southern California—Fair Monday, cooler at San Diego; fresh west wind.

Tide Table at San Pedro.—For the week ending Saturday, September 17:

	High.	Low.
Sunday, Sept. 11.....	7:42 a.m. 12:46 a.m.	6:10 p.m. 12:33 a.m.
Monday, " 12.....	7:49 a.m. 1:12 a.m.	6:12 p.m. 1:04 a.m.
Tuesday, " 13.....	7:54 a.m. 1:25 a.m.	6:14 p.m. 1:30 a.m.
Wednesday, " 14.....	8:23 a.m. 1:57 a.m.	6:16 p.m. 2:01 a.m.
Thursday, " 15.....	8:21 a.m. 2:01 p.m.	6:18 p.m. 2:33 a.m.
Friday, " 16.....	8:24 a.m. 2:33 a.m.	6:20 p.m. 3:06 a.m.
Saturday, " 17.....	8:28 a.m. 3:10 a.m.	6:22 p.m. 3:40 a.m.

For Santa Monica add two minutes to the time of high tide and five minutes to the time of low tide; for Newport, add eight minutes to the time of high tide and 10 minutes to the time of low tide.

ALL ALONG THE LINE.

Southern California made a very good showing last year in mining. The mineral output of this neck of the woods for 1897 was \$5,685,608.

There's nothing antiquated about Ventura. Just now work has begun on plans for a \$40,000 business block that will be a credit to the town. Such an improvement indicates that capital has confidence in Ventura.

The creamery project in Porterville, Tulare county, is moving with much favor, and its promoters have succeeded in securing nearly all of the names as subscribers to stock, necessary to insure the installation of a first-class plant.

The hot days just experienced were simply a suggestion of the kind of weather the people of the East have been enjoying, with the exception that they have to contend with humidity and sweltering nights, two things unknown to the people of this city.

The Pasadena Board of Trade is alive to the importance of effective advertising. It has had a handsomely illustrated brochure printed and distributed, the beauties and advantages of Pasadena. Ten thousand copies have been sent for distribution at the Omaha Exposition, and twice that number have been retained for free local distribution. Such compliances are very helpful in enlisting capital and interesting tourists.

Stockmen need have no fear of cheap prices this fall and the coming winter. Neither should the growers anticipate extravagant prices. The probabilities are that the price of beef, mutton and pork will advance from active demand and a limited supply as compared with past years. Shipments are smaller than last year, and the California supply of beef steers and fat cows will be extremely limited. In this State especially high prices may be expected for prime beef animals and choice muttons from October till May.

The new cyanide plant recently installed at Randsburg is giving excellent satisfaction. What is needed, not only in Randsburg district, but throughout Southern California, gold fields, is more up-to-date process plants and less dependence placed on smelting. Colorado, to a greater extent than any other mining State, has demonstrated the advantage of the cyanide, bromide, chlorination and other process systems for the treatment of low-grade ores over the older fire process. High-grade refractory ores, of course, are more successfully treated by smelters. Better methods of treating ores in California are greatly needed, and when introduced will swell the annual output of gold in California to an extent not known since the '90s.

MERIT WINES'S SUICIDE.

Express Messenger Shoots Himself at His Home.

Merit L. Wines, a Wells-Fargo express messenger, committed suicide by shooting himself in the heart shortly after 5 o'clock yesterday morning. The shooting occurred in the lavatory in the rear of the dead man's home, No. 620 Mateo street, while his wife was in the kitchen preparing breakfast and his children were playing about in the house, for they were to have had something special for the birthday of the youngest child's birthday today. Wines was to have left on his weekly run to El Paso yesterday morning, and the day celebration having for this reason been arranged to occur before his departure.

Neither Mrs. Wines nor any of her relatives can suggest a possible reason which might have influenced her husband to take his life so summarily. It was said by strangers that Wines had been melancholy since the death of his favorite sister in an eastern city a week or so ago, but Mrs. Wines said she had not detected any indications of despondency in her husband either before or since the death of her sister-in-law. He spoke of her demise feelingly, she said, but not in a manner to show that he was unnerved by it. Shortly after arising yesterday morning Wines went out into the yard. Mrs. Wines was busy in the kitchen at the time and did not notice him particularly. Scarcely a minute after the door closed behind him she heard a shot coming from the direction of the out-house, followed instantly by a second report. She rushed to the door and found him lying on the floor, the flow of blood being rapid and heavy. An instant later he expired. The first shot had taken effect at the lower end of the heart, and the subsequent shot at the left or two to the right of the first one. Either shot, it is thought, would have been sufficient to cause death almost instantly.

The body was removed to the undertaking rooms of Breese Bros., Corner Campbell held an inquest over the remains yesterday morning, the jury rendering a verdict of suicide. The funeral will be this afternoon at 3 o'clock from Breese Bros.

Mr. Wines had been in the employ of Wells, Fargo & Co. for more than fifteen years. During the last week or so, the manager of the company says, he has observed that Wines was absent-minded, mistakes frequently resulting. Wines leaves a widow and two children, a boy and a girl.

Wines and liquor for the sick room. Pure and sure at Woolcott's, 124 North Spring.

WATCHES cleaned, 75c; mainsprings, 50c; crystals, 10c. Patton, No. 214 South Broadway.

IN THE OIL FIELD.

STOCKS REDUCED EIGHTY THOUSAND BARRELS SINCE JUNE.

Special Shipment to San Francisco. Prices Unchanged and Firm—No Strikes Reported—Removal of Derivatives—About the Trustees.

Close figuring goes to show that the total quantity of oil that will be above ground at the close of the present month—inclusive of that in storage tanks and in tanks in the field—will not be more than 250,000 barrels. On June 1 last, stock taking showed there were 332,000 barrels of oil above ground. By this it is seen that in four months it has been necessary to draw on the reserve to the extent of 82,000 barrels to fill orders. It is unnecessary to point out that at this rate of going it will take only about twelve months and a half to use up all the reserve, leaving the industry, so far as this local field is concerned, entirely dependent upon the daily production. In the meantime contracts are being carried out, and shipments to San Francisco and other outside points made as usual. Last week a special shipment of 2000 barrels was made to San Francisco.

In the field prices continue steady at about \$1.15, although now and again one hears of a sale of a small lot at 90 cents a barrel. The trustees continue to hold their oil steady at \$1.15 a barrel. Another week has passed away without any new strikes to be reported. The outlook for anything in that line in the local field is not encouraging, and now that the City Council has determined to maintain the ordinance for prohibiting oil boring within 1600 feet of a city park, it is more than probable that the more prominent of the oil producers will turn their attention to districts outside of the city limits. In the meantime some of the more determined may still go on trying if there is not something to be found at a greater depth than in the wells yet down.

Alluding to the fact that in both the eastern and western local fields there are now a large number of non-producing wells, a writer to The Times asks whether the time has not arrived when the oil men should be called upon by the City Council to make a report on the wells showing those that are non-producing, and those that have been abandoned, so that the oil inspector could notify owners to remove the derricks and those which have been abandoned. The writer expresses the belief that if the city ordinance governing this matter were properly enforced nearly one-half of all the derricks now standing would have to be removed, and if such were done a great deal of property on that side of the city which is still unfavorably influenced through the proximity of these derricks would quickly show improvement in value. This is a matter that in common justice to property owners on that side the City Council should not ignore, for there is certainly neither rhyme nor reason in allowing a derrick to remain standing over an abandoned well.

It was stated a few days ago in an evening local paper that in anticipation of the fact that the Oil Producers' Trust would cease to exist as an organization, after the first of January next, the oil producers were making arrangements for a new organization. Inquiry in this matter develops the fact that the assumption of the cessation on January 1 next of the Oil Producers' trust is somewhat "preposterous." The existence of the present organization will naturally terminate on the date mentioned, but there is nothing to prevent the creation of a new organization on the same lines as the existing one. Those who are best qualified to speak in respect to this are of the opinion that the organization will be perpetuated for a further time, and with the exception of a few change in the governing rules, on the present lines.

Dollar oil in eastern fields has acted as a powerful stimulant in the search for new oil deposits. In its regular monthly review (August) the Oil City Derrick says there is a notable increase in all departments of field work, and that the increased activity that has been apparent ever since the advance started in the oil market is manifested in the net result in the operations for August. "Previous to the month just closed," says the report, "the increased drilling had no effect in bringing about an increase in new production. The output of the new wells in June declined about 1500 barrels from May, while July's yield from new wells was very nearly a stand off with that of June. August shows a net gain of more than 2700 barrels over July. Field activities in the Pennsylvania oil regions have increased from 528 rigs and drilling wells at the close of April to 733 at the close of August. The new production for the past month was greater than for any month of the present year since January, and the work under way has not been exceeded since August, 1897, when it summed up 735 rigs and drilling wells."

In a report in the Russian petroleum trade, J. C. Chambers, writing from Batoum says: "The remarkable increase in the demand for residuum for fuel in Russia, and the consequent high prices ruled throughout the year for that product, coupled with the low price of illuminating oil, resulting from the making of fuel oil the main object of the refining, and the refined article to second place." The writer then proceeds, saying: "The average price of residuum in 1897 was the highest ever known in the trade, notwithstanding the production of residuum exceeded that of any previous year by about 25 per cent. The average price of the year was never for any length of time below 34 cents per barrel, and was often higher, closing with the year at over 40 cents per barrel. The increase in the demand was due principally to increased distributing facilities in the manufacturing districts of Russia, but there is no doubt that it was also partly due to an increase in the manufacturing industries of the empire. It is not necessary since it was the opinion of some of those engaged in the fuel oil trade, and therefore most competent to judge, that the price of residuum at Batou could not go above 6 copecks per peod (25 cents per barrel) without curtailing the demand. The average price at least 10 cents per barrel above that figure, the demand increased 25 per cent., and an expression of opinion regarding the future at this time would be very hazardous."

The above statements are of interest even at this distance, showing as they do, the importance attached to crude petroleum and its residuum as a fuel product. That is a fact that has been well demonstrated in Los Angeles, and there can be no contesting the point that Southern California in its crude petroleum deposits possesses advantage not enjoyed by any other section on the Pacific Coast, or, for that matter, in America.

A head lumber surveyor for a mill in East Hampden, Me., gives the following account of a very curious difficulty: "For the past six or seven years I have been troubled with constipation, and as regularly as each Sunday came round I would have a terrible headache; so bad in fact, that I would scarcely go out of the house at all for the day. My work is such that I am standing in one spot checking lumber nearly all day long, and so get no exercise to speak of. I used all kinds of headache cures that I could find, but they would soon give no effect. One Saturday one of the firm gave me a bottle of Ripans Tablets and I used them that night. The next morning I was more than surprised to find no headache. I have used them regularly since, and have no headaches, am no longer constipated, and my general health is all that could be desired. I couldn't keep house without Ripans Tablets. A friend of this man adds: "He desires that his name be not used in an advertisement, but would be glad to answer any inquiries. I can personally vouch for the truth of his story, as I was the one who called his attention to the Tablets."

A new style packet containing TEN RIPIANS TABLETS in a paper carton (without glass) is now for sale at some drug stores—for 75c. This low-priced sort is intended for the poor and the economical. One dozen of the five-cent cartons (50 tablets) can be had by mail by sending forty-eight cents to the RYAN CHEMICAL COMPANY, No. 10 Spruce Street, New York—or a single carton (TEN TABLETS) will be sent for five cents.

What Shall We Do

With our boys and girls? See article on the educational advantages of Southern California, by the President of the Los Angeles School Board, in September number of Land of Sunshine magazine. Full of authentic figures and interesting facts and illustrations. Every scholar, parent and teacher should have it for reference, and to send east as a drawing card.

10c a copy; \$1.00 a year.

For Sale by all Newsdealers, or by LAND OF SUNSHINE PUBLISHING CO., Stinson Building, Los Angeles.

THERE'S A CURE...

For unsightly teeth—and a recipe for pretty ones—in proper care at the proper time.

Good teeth are simply a choice between careful good taste and careless neglect.

A choice that the palateness of all tooth operations, by the modern electrical wonder—Cathaphoresis—helps to make a proper one.

Dr. M. E. Spinks THE DENTIST

Spinks Block, Corner Fifth and Hill Sts.

Tel. Black 1103

There was plenty of excitement about the coursing at Agricultural Park yesterday afternoon. Little Dick, John Jones's fawn dog, against whom the odds were 5 to 1, beat the fleet runner, Kitty Scott. Little Dick went down to defeat, however, before Orpheum Lass. The Lass won first money again, after a hard tussle with the runner-up, Little B. The latter is a San Francisco bitch, owned by J. Bradshaw. She developed unexpected ability, and defeated in turn Uncle Tom, Doncaster, Amorita and Stella. Fireball and Van Brulle were both overpowered by the excessive heat. The hares ran well, and the crowd was large. The detailed results were as follows:

Run off—Little Dan C. Amorita beat Romeo, Rag Baby beat Black Diamond, Stella beat May Day, Fireball beat Lady Agnes, Van Brulle beat Clover Leaf, Doncaster beat A.B.C., Little B. beat Uncle Tom, Little Dick beat Maid of Erin, Fleetfoot beat Beale L. Uncle Sam beat Five of Diamonds, Kitty Scott beat Lady Wallace. The Ghost beat Gypsy, Orpheum Lass beat Ormonde, Rosewood beat Reliance, Orpheum Lass beat New Home. First ties—Little Dan Amorita, Stella beat Rag Baby, Juliet (a bye) beat Van Brulle, Little B. beat Doncaster, Little Dick beat Fleetfoot, Kitty Scott beat Uncle Sam, Orpheum Lass beat The Ghost, Orpheum Lass beat Rosewood. Second ties—Stella beat Little B. beat Amorita (a bye), Little Dick beat Kitty Scott, Orpheum Lass beat Orpheum Prince. Third ties—Little B. beat Stella, Orpheum Lass beat Little Dick. Final—Orpheum Lass beat Little B.

THE RIFLE.

Lessons of the Recent Match Held at Azusa.

The rifle shooting at Azusa last Friday illustrated the difference between off-hand short-range marksmanship and the science of shooting at long range under unfavorable weather conditions. While the Azusa team won at the 500-yard range, the members of that team will not claim that the result was due to steady holding or better eyesight. At the 200-yard range the Los Angeles team won, although some of the members did not shoot up to their average by many points.

Some of the steepest and best shots on the Los Angeles team were unable to keep on the target at 500 yards, and not having had any experience with wind and its effect on the projectile, they could not be persuaded until too late that the wind was drifting their bullets two feet or more from the line of sight. The Azusa range is at the mouth of the San Gabriel Cañon, and the target is in the river bed. The wind blowing up the cañon follows the line of sight, and the shooter watches closely the wind flags nearest the target, he is likely to be badly fooled.

The Azusa men knew the range and the wind, and the others did not, and it so happened that the first of the Los Angeles team to get into trouble were those who had no previous experience on a windy range. Even when the cause of the wild shooting was detected by the Los Angeles coach, some members of the team refused to be convinced and would not follow instructions until their scores were hopelessly ruined and the team was beaten. One man who is always ready to get into a fight fell down to 16 points at this range, and another equally good shot made only 24 simply and solely because he would not obey the instructions of the coach.

The match probably has taught some of the Los Angeles men that ability to hold and steady the rifle is not the alpha and omega of midrange and long-range shooting, and that a ten or fifteen-knot breeze is not a negligible quantity. It is also probable that some of them now understand that a coach is of no use unless his instructions are followed.

The fact that the total score of the Los Angeles team was 103 points less than the total made by the same team the day before, shows clearly the difference between practice and still air and shooting against a strong wind without the wind-gauge.

RIFLE TOURNAMENT.

Preliminary work toward arranging for a tournament in October at the new range secured by the Sharpshooters is well advanced, and the committee will be prepared to make report at a meeting of the company to be held next Thursday night. It is proposed to hold a three or four days' tournament, open to all, and to offer an attractive list of prizes.

The California Schutzen Club's annual fall shooting festival will open on Sunday, the 25th inst., at Schutzen Park near San Rafael. An interesting programme has been prepared, and the prizes in the several matches will be very liberal. There will be shooting on the King, honorary and point targets, beside special premiums and prizes for centers.

Preserving Gun Barrels.

W. Gams writes to Shooting and Fishing some interesting facts about the treatment of gun barrels by the process invented by Joseph Singer of Los Angeles.

tended visit to England and France. It is said in letters from England that all the horses will be shipped here late in the fall, and that active work for next season will then begin on the New Jersey farm. Mr. Lorillard's successes have been many on the English turf, but there is no doubt he is disappointed in not having had a champion in the two or three-year-old division in the last two seasons.

Covina Tennis Tournament.

This morning a 9 o'clock one commenced the first annual tennis tournament of the Covina Tennis Club, to be played on the Covina court. This affair is to consist of doubles only, as the club at present has but one court. As a starter in this valley it was thought advisable not to run the tournament too long. Twenty-six entries have come in, among them some good local players, Messrs. South and Bowring, and Fox and Bowring of San Dimas, Gale and Rice and Boudin and Clelland of Azusa, Spence and Neely of Montevia, Coons and Bennink and Evans and Moulthrop of Covina, are among the court players, among whom can probably be found the winners. Dark horses abound.

Admission is free, and admirers of the game will see some good play. The tournament will continue two or two and one-half days.

Pigeon Racing.

The Los Angeles City Flying Club will hold a series of five pigeon races from Santa Monica, commencing September 18. All owners of homers within the city limits are invited to join in the sport.

For the best average speed in the five races, O. S. Miller offers a pair of young English homers as first prize. J. C. Gitten offers for second best average speed a pair of Antwerp homers. These two prizes will be awarded to outsiders and competitors only. A club diploma will be given for best average speed made by members, and a certificate of speed given to the next six in order.

The entries for this series of races close September 16, at 9 p.m., and all those wishing to participate in them must apply for particulars to the secretary, Childs, race secretary, No. 1111 South Main street, or G. G. Young, No. 1337 Santa Monica street.

The Gitten silver cup, that was competed for in 1897, the time limit being three hours, and which was lost by the Gitten club, will be competed for on October 23, 100 miles air line, open to all W. banded birds.

The annual 100-mile flying bird race for 1898 will take place on October 20. The prizes will be six club diplomas and several elaborate medals. This will be one of the largest young-bird races ever held in the country. It asks the shooting public to be careful when gunning on and about the above dates. Any persons finding at any time any strange homers, dead or alive, will confer a favor on the association by notifying the secretary, J. C. Gitten, No. 1019 Florida street, Los Angeles.

Howling to Be Encouraged.

(Western Sports.) There is every indication that howling on the Pacific Coast has been given a new impetus. The Astoria regatta was largely responsible for this. That memorable event attracted a large crowd out of their beaten tracks and demonstrated to them what the possibilities of the sport are, when backed by a little pep and enthusiasm.

The second chapter in the story of aquatic transformation has just been enacted by the city fathers of Oakland, and eight hundred dollars have been appropriated for dredging Lake Merritt and improving its shores, and it is on the placid surface of the lake that the local oarsmen will take place. There is not a better course on the entire coast than the one that runs along Lake Merritt. Along the western shore there is a mile and a half straightaway, and along that portion the water is as smooth as a mill pond.

There is a project on foot to erect an immense grand stand at the southern end, and capable of seating 10,000 spectators. From this point an excellent view could be had of both the start and finish of the long distance events, where the course is double to the stake and back.

It is the intention at present to hold a monster regatta over the new course that is being dug in the lake. The promoters of the new enterprise also propose to hold a regatta in the fall, for which many of the noted eastern crews will be brought out, and also the single scullers, including the old Ten Eleven.

The University of California oarsmen, who now row on Oakland Creek, will doubtless train hereafter on Lake Merritt.

CYCLING.

(Pittsburgh Dispatch.) The American wheelmen, having met the Europeans on home grounds and defeated them, now contemplate a trip to Paris and London for the purpose of meeting them on other shores and duplicating their 1898 successes. Bald, Cooper, Kimble and Starbuck will probably comprise the sprinters, while Titus, Coulter and Starbuck are the unpaired riders who will make the trip, and Eddie McDuffee and Harry Elkes are the paired riders.

Taylor and Kimble are able to defeat the best riders they have in Europe. Kimble and Taylor are the best showing according to the policy of style of racing, as it is the policy of those riders to loaf, jockey, jump and make the first part of the race. Then, by a series of "windings," make a long and rapid sprint, sometimes lasting for the last quarter of a mile.

The American season is now about to commence, and athletes will not be neglected at Carlisle. Considerable attention will, of course, be paid to football and games, and the team arranged with a number of the leading universities and colleges. The football team will be coached by "Jack" Hall, who played last year for Yale. The first team has already been organized and good results may be expected.

During the autumn season, the team worked as a farm laborer, and is thus enabled to go on the gridiron with muscles hardened and in much better condition than the average player on the "varsity" elevens at the beginning of each season.

It robs them
of their terrors
—by taking
away that
clothes-de-
stroying,
back-
breaking
rub, rub,
rub. What
does the work
of washing
amount to
when all you
have to do is to put the things in to soak and boil—and then just rinse them out? That's the Pearline way of washing—easy for women and easy for clothes. In all kinds of cleaning, too, you get rid of that tiresome rubbing. Any one can see what it saves. And remember, no matter how you use Pearline, it's absolutely and entirely harmless.

PEARLINE

express trains, that they will not be accepted as free luggage, and that a charge of 50 cents will be imposed for their conveyance, has evoked energetic protests. At Dortmund recently there was a meeting of several thousand cyclists at which resolutions were passed against the proposed rules. One society alone, which has 42,000 members, believes that it is sufficiently powerful to dissuade the Minister from putting his new measures into effect.

Laws have already been passed in several States requiring the use of wide tires on heavy wagons on the common highway. It has been proposed to combine with that plan a provision that the rear axle shall be six or seven inches longer than the front one. The hind wheels would then run in a different track from the front ones, and a smoothing effect upon the road would be produced. The scheme has merit.

The simplest method of finding the gear of one's machine is to count the number of teeth on each of the two chain wheels, then divide the number of teeth of the smaller chain wheel into the number on the larger and multiply the diameter of the driving wheel by the result. For instance, if the rear wheel is twenty-eight inches and the teeth on the two cogwheels number eight and ten respectively, the gear would be fifty-six.

An extraordinary coasting contest took place in New England a few days ago, the main object of which was to get at the comparative running qualities of certain tires. The contest was held on a road of about 130 pounds. There were three separate trials, both contestants using the same machines under exactly identical conditions. In the first trial the light man coasted 125 feet and covered the first 100 feet in thirty-one seconds, while the heavier man coasted only sixty-six seconds to reach the 100-foot mark and only scored a total of 105 feet. The second trial, with different equipment, resulted more favorably to the heavierweight, who beat his opponent by half a second for 100 feet, and was only beaten by one foot in the third trial.

The man was again victorious both in time and distance. The riders were regarded as equally skillful at coasting, but the heavier man was the victor in the contest neither was allowed to take advantage of any special bodily movements which are supposed to accelerate progress.

IN THE KENNELS.

The field trials to be held at Bakersfield next January give promise of proving very successful. Thanks to an efficient and energetic local club has taken hold of affairs with unprecedented vigor and with an evident purpose to do all that is possible for the good of both dogs and owners. In the past the support of the Pacific Coast trials has not been all that it should have been. A marked improvement was shown last year, however, and as a consequence more than ordinary interest is manifested in the plans which are now being made for next January.

The University of California oarsmen, who now row on Oakland Creek, will doubtless train hereafter on Lake Merritt.

BASEBALL.

Chance, the young California catcher with Chicago, now stands twenty-third among the National League batters. This is remarkable considering that it is his first season in the major league. (New York Mail and Express.) Baseball managers these days are rapidly coming to the conclusion that more brains and less brawn is needed before teams can be conducted on a thoroughly successful basis. In batting, at least, the Baltimore players possess the brains. The catcher, however, is a study during the whole game, and this study is almost entirely devoted to the pitcher. Such clever thinkers as Jennings, Kelley and McGraw soon make up their minds as to what they have to expect from the opposing twirler.

The Americans have a lot of glitzy curves he today that we can't hit. Is he wasting a couple of balls, or is he showing the first sign of a balk? The pitcher is wasting a ball or two, and generally land on the sphere when it is least expected.

NEW RELIGIOUS CRAZE.

Its Followers Claim to Be Purified and Better Than St. Paul.

A peculiar religious innovation has gained ground in the town of Baxley, Ga., and surrounding counties. They are called the "Purified Ones," and are the open, and congregating around them in indiscriminate masses of men, women and children pray, shout and struggle with each other, and in their frenzy frequently wounding their fellows.

THE VALUE OF HEALTH.

People who enjoy the best of health have many burdens to bear, but those who are suffering with bodily ailments are doubly handicapped in life's struggle.

There are undelivered telegrams at the Western Union Telegraph Company's office for Maud Nevill and E. E. Allen (2).

The monthly meeting of the Lark Ellen News and Working Boys' Home will be held Wednesday, the 13th of September, at No. 808 San Pedro street at 10 o'clock a.m.

The Merchants and Manufacturers' Association will meet at 3 o'clock p.m. today to discuss the revenue stamp tax with representatives of the express company that refuses to pay the tax.

Charles M. Elbertson, elected delegate from the nineteenth precinct, Third Ward, and Fred Williams, delegate from the twenty-second precinct, are accused of having voted in the twenty-fourth precinct. They belong to the Southern Pacific Parker gang.

MANAGER FRAWLEY'S TROUBLE
The Search for a Leading Lady

When one looks upon the countenance of genial T. Daniel, they would scarcely believe that he was almost driven to distraction for the want of a good leading lady to finish his present season. Miss Madeleine Bouton, who started in so brilliantly with Mr. Frawley in the beginning of his present season, was unfortunately taken ill some four or five weeks ago and was compelled to go to the hospital, where she still is at the present time. Upon being told by the physician that undoubtedly Miss Bouton would not be able to take up her work with him, Mr. Frawley wired east to all of the dramatic agencies, or nearly all of them, asking what suitable leading ladies were at liberty; and out of all the replies received he did not find a single name that struck him as being the proper party to fill this important position in his company.

Blanch Bates, who had for the past three seasons filled that position with Mr. Frawley, heard of his predicament and offered to help him out if he could obtain permission for her release from Augustin Daly of New York City, with whom she had signed for this season. Many telegrams passed between Mr. Frawley and Mr. Daly, and it was finally arranged between them that Miss Bates could join the company providing she was returned to Mr. Daly by November 7.

Miss Bates will join the company in Los Angeles and play her first engagement with the present Frawley Company in this city, appearing in the leading roles of "The Last Word," which was a great success of Miss Ada Rehan's last season, and among other plays, she will essay the leading role in E. H. Sothern's romantic drama, "An Enemy to the King." The caste of this play necessitates the carrying of twenty-three people for the Governor, has gone to Santa Barbara and San Francisco looking for Maguire.

Socialist Meeting.
At the Socialist meeting last evening Judge A. J. Utley spoke on "Scientific Money and its Defense." The speaker talked on the subject's historical and scientific aspects, from the farthest view point. His remarks brought forth some opposition. The Socialists have organized new sections at Santa Monica, Compton, San Diego and Santa Ana. John Harriman, the Socialist-Labor party candidate for Governor, has gone to Santa Barbara and San Francisco looking for Maguire.

Mr. P. Rossi, manager of the well-known firm the P. Rossi Company of San Francisco, is now at the Hotel Van Nuys. His object being that of introducing in Los Angeles his magnificent line of artistic, hand-carved and Marquetine imported furniture, of which he has factories in Venice and Paris. For that purpose the P. Rossi Company will open a store here in Los Angeles, exhibiting also a complete assortment of art ware, French laces and rich tapestry for drapery and hanging.

DEATH RECORD.
HOWARD—Willard Parker, aged 31 years and 1 day, a native of Indiana, September 8, 1893.

Services at Chapel Tuesday, 11:30 o'clock a.m. Rosedale.

SALABERRI—Juan, in this city, September 10, 1893, of San Juan Capistrano, aged 62 years.

Funeral from No. 526 Summit avenue, Tuesday, September 13, at 8:30 o'clock a.m., thence to Our Lady of the Angels Church, Interment New Calvary Cemetery.

SACRED MEMORY.

CAMP U. S. GRANT DOES HONOR TO DEPARTED COMRADES

Their Patriotic Deeds Are Told as an Inspiration to the Living.

THE ROLL CALL OF THE DEAD.

REV. W. H. KNIGHT'S ADDRESS TO THE VETERANS.

Draped Vacant Chairs for the G.A.R., the W.R.C. and the Late Senior Vice-Commander T. F. Laycock.

CAMP U. S. GRANT (Long Beach), Sept. 11.—[Regular Correspondence.] High honors to dead comrades were paid by the veterans in camp today. The services held in the Tabernacle this morning in honor of the comrades who had died within the past twelve months were the most impressive that have been witnessed at the encampment. The platform was prettily trimmed with pepper boughs and floral pieces and the Stars and Stripes.

Vacant chairs for the G.A.R. and W.R.C., draped with black and with Old Glory, occupied prominent positions at the front of the rostrum, and with them was another chair similarly draped in memory of Capt. Thomas Franklin Laycock, junior vice-commander of the association, who had died within the year. His widow and other members of his family occupied seats in the front of the audience. Capt. Laycock was ensign and acting master's mate in the navy during the civil war.

Comrade O. T. Thomas of Stanton Post sounded assembly call. Prayer was offered by Rev. Alfred Inwood, pastor of the Methodist Church of Long Beach. The list of names of comrades who had died during the past year was read by Adjt. John Brooker, the pronouncing of each name being accompanied by roll of muffled drum, beat by Philo L. Case. The names were read as follows:

Thomas F. Laycock, T. J. Jeans of Pasadena, Col. Thomas F. Hall, Ninety-second New York Infantry; George E. Wise, U.S.N.; Dr. William Hughes, Leonis Kirtland, Horace Miller, One Hundred and Thirty-second Illinois Infantry; M. Sherman, first lieutenant Co. G, Fourth California Cavalry; Amos Pettigill, corporal, Co. B, Twenty-fifth Massachusetts Infantry; Jedekiah Pickett, Co. E, Seventy-sixth Indiana Infantry; Nathan B. Gleason, Co. E, Seventh Iowa Cavalry; E. L. Sherman, Co. D, Ninety-second New York Infantry; Joseph Smith, Twenty-fifth Illinois Infantry; and First United States Infantry; Joseph Smith, First Minnesota Infantry, and also veteran of Mexican war; B. Lewis of Santa Ana; Joseph D. Conklin, Co. K, First Missouri Engineers; William Wagner, captain, Co. E, Second Wisconsin Cavalry; Alpha Baker, Co. A, Fourth Maine Infantry; Gen. Ludlow, Col. Fitch, Capt. Behn, First United States Infantry, wounded at Santiago, and Dr. William H. Case of the Fifth United States Cavalry, also from Santiago, were presented to the audience and enthusiastically cheered. Mrs. Rosa D. Pittman of Long Beach was as the first of the only daughter of an ex-Confederate soldier.

J. M. Pittman, and was heartily cheered. A farce, "The Jilted Maid's Convention," and a humorous sketch, "The Smith Family," were presented by the ladies. A vocal solo was rendered by Mrs. Jennie R. Young.

CAMP NOTES.
Col. Sweeney of San Bernardino is officer of the day and Comrade Van Horn is officer of the guard.

The women in camp turned out late Saturday night and made things lively by singing loudly about a high temperature in an ancient toy.

A memorial sermon was preached by Rev. Will H. Knight, chaplain of the association, at occupied nearly two hours in delivery. The sermon showed no sign of weariness. Several times, at mention of one or another of the important battles of the civil war, the speaker called on those who had been there to stand up. The numbers of those responding were surprisingly large.

Many of the points in the sermon were heartily cheered.

Mr. Knight chose two texts, one from Isaiah: "Open ye the gates that the righteous nation which keepeth the truth may enter in;" and the other from Psalm: "Blessed is the nation whose God is the Lord, and the people whom He hath chosen for His own inheritance."

"We believe in the supreme authority of God over all worlds," said he in part. "He planned the universe and He rules over all worlds. The nations that choose God's laws have been blessed and prospered. Our nation has made the solemn announcement to all others that it accepts the Bible as God's book and the ten commandments as its code." Illustrating these declarations the speaker called attention to the words, "In God We Trust" on the national motto, Washington's prayer at Valley Forge, President McKinley's proclamation after the destruction of Cervera's fleet, and the words of Capt. Philip of the battleship Texas, "I wish to acknowledge here and now my faith in God Almighty."

"One of our highest and noblest virtues," he continued, "is our patriotism. It is inherent. It is what has been taught us by the Grand Army of the Republic, that noble body of disbanded soldiers who left the tent and camp, and ship, and trench, and swamp, and hospital, and battlefield lame and sick and blind and broken. They have inspired us upon three generations. They have taught it to their children by the stories of the field, the sacrifices and sufferings, the victories they won and the dangers through which they passed. How the veterans have inspired the nation is seen by the way the young men have come when called and have crowded to the front eager for battle."

Speaking of the dead, Mr. Knight continued: "The Grand Army of the Republic will ever cherish the names and emulate the virtues of its brave departed. It will enable them to live through the generation as it marches on into the silent and yet glorious eternity beyond and leave the pages of our blessed country's history radiant with their illustrious deeds as an inspiration to all the coming ages. They had a country with its deep and lasting principles to love and a freedom which has made every war a stepping stone to the ultimate liberation of the world. They have defended a liberty which had made every citizen a sovereign and every home a fortress."

"The flag which they have defended is the one ascendant banner of the age. The eyes of the hungry, the persecuted, the ignorant and the dying have looked on it, and they have prayed and are praying for it to be unfurled even upon the islands of the sea. The gems of the ocean are being snatched from the crowns of the decaying monarchies of the East to shine forever in our galaxy of stars in our bright constellation of the West. It is God's banner, it has His seal of truth and He caused it to be written, 'Open ye

the gates that the righteous nation, which keepeth the truth may enter in.' From Cuba to Hawaii and to faraway Manila and the remotest corners of this wide earth let our army and navy raise its starry folds never to be taken down. Let the missionary of truth and human rights be protected by such master ironclads as the Oregon, with its 16,000-mile record, and the other fighting ships of the nation backed by the heroes who have consecrated their lives to the maintenance of our dear old flag. Let humanity still be the object of all our wars and our civilization still be borne aloft beside our flag, the eternal emblem of man's redemption and fraternity. We must not forget in the service of home, how the heroes of the Grand Army of the Republic rejoice in the loyalty and harmony of all sections of our broad domain. We are more in favor of the union than ever. It is the greatest of all our forces, the sum of all our strength, the climax of all our civilization, and the highest and most precious of all our virtues. The union is and always will be the power that maintains our national life. It is the term of our liberties. From it comes the flashes of our intelligence and civilization that alarms tyrants and scatters their armies. It is the power that has made earth's downcast and oppressed. Let it be our monument, to stand forever. Let the names of its defenders, deeply carved upon its imperishable shield, shine undiminished till time shall be no more."

This afternoon there was a dress parade and a sacred concert was given in the tabernacle this evening, at which latter gathering the following resolutions were adopted, only one man in the big audience voting against it. The Masses doing so under an apparent misapprehension:

Whereas, we the ex-soldiers and sailors assembled in Camp U. S. Grant, Long Beach, learning of the action taken by one Abbot Kinney, in a suit filed by him in the Superior Court, having for its object the disfranchisement of our comrades, who, as guests of a generous government are domiciled at the national home in the city, and being desirous of expressing our indignation and disapprobation of this unholy, unpatriotic and un-American action, do hereby denounce any man or set of men or any political party unworthy to enjoy the blessings of this great republic, whose cardinal creed is eternal gratitude to its patriotic citizen soldiers, who in the hour of their country's greatest peril died or offered to die for their country's salvation and without whose noble self-sacrifice this Union must have been dissolved and this grand republic be a mere name among the nations of the earth, and be it further

"Resolved, that he who would scheme through technicalities of the law to forward his own political ends by robbing these old veterans of their right and privilege held dear by every American citizen to participate in choosing the lawmakers and rulers of this grand State or glorious republic merits the unqualified condemnation of his countrymen, regardless of party or class."

LONG BEACH W.R.C.
The entertainment Saturday evening was given by the ladies of the Long Beach W.R.C., assisted by Mmes. George Hodgman and Taylor of Bartlett-Logan W.R.C. Jesse Franks of Co. G, United States Infantry, wounded at Santiago, and Dr. William H. Case of the Fifth United States Cavalry, also from Santiago, were presented to the audience and enthusiastically cheered.

Mrs. Rosa D. Pittman of Long Beach was as the first of the only daughter of an ex-Confederate soldier. J. M. Pittman, and was heartily cheered. A farce, "The Jilted Maid's Convention," and a humorous sketch, "The Smith Family," were presented by the ladies. A vocal solo was rendered by Mrs. Jennie R. Young.

THEY WANT PENSIONS.

Letter Carriers Will Ask Congress for Substantial Aid.

[ASSOCIATED PRESS NIGHT REPORT.]

TOLEDO (O.) Sept. 10.—The Letter Carriers' Association reflected John N. Parsons of Chicago, president. The convention adopted a resolution to present a bill to Congress asking pensions for letter-carriers who have been in the service for thirty-five years. It is proposed that 2 per cent. of the salaries of the carriers be held in the Treasury of the United States. An ironclad eight-hour law will also be urged. Congress will be asked to raise the salaries of letter-carriers in cities of 75,000 people or over. The San Francisco letter-carriers asked aid in collection of overtime claims.
